

Class Rule Changes of Recognized Classes

Regulation 1.1

A submission from the Chairman of the Equipment Committee

Proposal:

- 1.1 Member National Authorities, International Class Associations, the Executive Committee, the Chairmen of Committees established by the Council, the Chairman of the Women's Forum and the President may make submissions. ~~Recognized Class Associations may make submissions to change their class rules.~~

Current Position:

As above

Reason:

Regulation 1.1 refers to submissions for class rule changes made by Recognized Class Associations. With the current class rule change process an application may be made at any time of the year and therefore a submission is not necessary or appropriate. Regulation 26.10 deals with the class rule change application process and further wording is not necessary.
