

Racing Areas for Major Events

Qualification and Classification of Venues

A submission from the Royal Spanish Sailing Federation

Proposal

ISAF and Major Events should only be organised by Sailing Clubs, Event Organisers and Racing Areas approved by ISAF.

Current Position

None

Reason:

Sailing is becoming more a professional sport. As with other sports, Sailing should grade sailing clubs, event organisers and racing areas to ensure competitors have good race management, racing areas, wind conditions, facilities, etc

By creating a long list of approved Sailing Clubs, Event Organisers and Racing Areas ISAF can help ensure that specific events will be a success.

This is especially important for those events described in regulation 18.12.15 (a).
