Organization quality grade:	Very Good																											
Venue good points:	On-water organisation, shore organisation, support from club volunteers, shore facilities, proximity to race course.																											
Recommendations for future World Championship events- Venue:	Sailing water is constrained by geography of English Bay, and the fact that is used as a busy anchorage for shipping entering and leaving Vancouver.																											
Recommendations - Generally in terms class logistic of running a World Championship?	Support from local fleet was very strong, and availability of boats for charter helped to mitigate problem of long shipping times from Europe.
