

## ISAF Offshore Special Regulations

Notice – 11 June 2009

In accordance with ISAF Regulation 36.3 the following interpretation has been made.

### ISAF 3.03 Plan Review Implementation Date

#### Question 1:

Would it be possible to clarify “with Age or Series Date on or after 1 June 2009”, is that lamination of any part of the yacht structure (including bulb & keel) starting for a yacht after 1 June 2009?

#### Answer 1:

Yes, for the purpose of this specific regulation 3.03 and Appendix M this refers to construction of the yacht structure. If the construction of the yacht or the first yacht of a series production started on or after the 1<sup>st</sup> June then ISAF Offshore Special Regulation (OSR) 3.03 applies. If the construction started before this date then ISAF OSR Appendix M applies.

#### Question 2:

If a yacht has an age date after June 1 2009 does it require ISAF OSR plan review, even if the Series date predates that?

#### Answer 2:

No, if the Series date is before 1<sup>st</sup> June 2009 (i.e. a yacht of the same series and identical design started construction before this date) then ISAF Offshore Special Regulation Appendix M applies
