

INTERNATIONAL DRAGON CLASS ASSOCIATION

The following amendments to the Class Rules have been approved to be effective 1st March 2005.

Rule 2.514

Amendment: To add after paragraph 3: “Deck Beams between Station 5 and the mast and between Station 12 and the aft end of the cockpit may be replaced with bulkheads, provided that the flanges connecting the bulkhead to the deck are of minimum 40 mm width, alternatively a curved deck beam may be fitted at either or both aforementioned positions if the deck beam would otherwise intersect a bulkhead.”

Rule 9.51

Amendment: Spinnaker Diagram, Change the minimum dimension for the foot of “2350 mm” to “2300 mm”.

Rule 2.502.1

Amendment: Add new paragraph to read: “Non-woven fleece made only from fibres may be used, provided a closed-mould vacuum method is being employed. A maximum two layers of fleece of maximum 180g/m² each may be used. If any fleece is being used it shall be consistent for the full length of the moulding”
