

Minutes

To note the minutes of the Executive Committee meeting of February 2009 regarding the International Regulations Commission:

(i) “ International Regulations

It was highlighted under Item 7 of the International Regulations Commission minutes that ISAF should remain engaged in environmental issues. It was noted that the Technical and Offshore department deal with this topic and they would keep up with communications with relevant organisations.

Item 9(f) of the International Regulations Commission minutes was also raised regarding the Terms of Reference (TOR) of the Commission. The statement that the TOR should state the commission was a permanent commission was felt unnecessary as all Commissions are ongoing until the Executive disband the commission. In addition there was suggested wording regarding the scope of the Commission to include “issues such as” before listing the items that the Commission should be engaged with. This wording was deemed unnecessary as the original wording was not deemed restrictive in any way. “
