#### Reasons

The submission addresses the discussion on Events Committee and Council regarding the meaning of “or” during the 2010 annual conference as far as the participation of both disciplines, which the IOC recognizes as distinct and different, is ensured.

However, separating the two available board medals by discipline instead of gender seems to be more practical as it reduces costs to MNAs and event organizers and supports the integrity of both sports.

This solution allows the IOC to consider the option of introducing gender medals in both windsurfing and kiteboarding by granting ISAF additional medals for the new discipline of kiteboarding.
