Q&A 2009-021

Published: 16 February 2009

Background:

Two boats, Blue and White, are racing. They are approaching a big obstruction that can be passed on either side. The courses steered by both boats are towards the middle of the obstruction. At position 1 Blue is clear ahead (by a very narrow margin) and on a track to windward of White. When Blue bears away slightly, she immediately becomes overlapped to windward of White.

Rule 19.2(a) states that the right-of-way boat may choose to pass the obstruction on either side. In position 1 Blue is clear ahead, and thus has right-of-way under rule 12. When Blue bears away and becomes overlapped to windward of White, White becomes the right-of-way boat under rule 11.

Question:

How can we determine which boat has the right to choose the side for passing the obstruction?

All published answers are based upon the 2009-2012 Racing Rules of Sailing

Answer:

At any point in time the right-of-way boat at that moment is entitled by rule 19.2(a) to choose on which side she will pass the obstruction. Therefore, when the boats are at position 1, Blue has the right to choose to pass the obstruction on either side. However, when the boats reach position 2 Blue has lost that right, and at that time White has the right to choose.

When a right-of-way boat acts to implement a choice she has made under rule 19.2(a), she must comply with any applicable rules of Sections A and B. In addition, rule 19.2(b) applies if the boats are overlapped. In that case, the outside boat must give the inside boat room between her and the obstruction, unless she has been unable to do so from the time the overlap began.

In the case shown in the diagram, if after position 2 White chose to leave the obstruction to starboard and if the boats remained overlapped, White would have to comply with rules 16.1 and 17, and Blue would have to give White room between her and the obstruction as required by rule 19.2(b).
