	<ul style="list-style-type: none"> - ASHORE: Lack of space for measurement at the same place the boats were put together and into the water, lack of mooring as well, all well solved with adjacent places in the lake front. - AFLOAT: Race committee way too dependent from local sailors' opinion.
Please state any recommendations for future World Championship events	<p>(1) At the same venue Superb dates for the event, lots of wind in a lake known for no wind, maybe too much for other classes but for the Soling Class, just perfect.</p> <p>(2) Generally in terms class logistic of running a World Championship? (not venue specific points) In the Soling Class is very important a local fleet behind the organization, besides a few boats available for overseas visitors.</p>
