

Submission: **SR10-06**

## **OFFSHORE SPECIAL REGULATIONS**

### Appendix H - Code for Oceanic Races

A submission from the Chairman, International Regulations Commission

#### Proposal:

Change H2 to read:

**“Competitors should comply with ISAF Offshore Special Regulations including recommendations, class rules notwithstanding.”**

Delete H3 :

~~**“In accordance with Special Regulations, an adequate number of competitors on each yacht shall have survival training”**~~

Change H4 to read:

**“Races should be conducted...”**

Re-number remaining paragraphs H1, 2 and 3.

#### Current Position:

Appendix H is a Code of Practice, exemplified in H1 which states what *should* be done by organizers in respect to SAR authorities.

#### Reasons

The proposed changes clarify the the status of Appendix H as a Code of Practice. H3 is removed as it is covered by H2.

New H2 draws attention to recommendations in Special Regulations (including eg 3.04.3 for an organizer to require a minimum stability/buoyancy index).
