

Election of President and Vice-Presidents

Regulation 7.4

A submission from the Federacion Venezolana de Vela

Proposal:

- 7.4 All voting shall be by secret ballot. **However, the number of votes obtained by each candidate in each ballot should be informed after each ballot at the General assembly.**

Current Position:

- 7.4 All voting shall be by secret ballot.

Reason:

Candidates to President and Vice President have spent time, effort and money during their campaigns visiting distant MNAs, explaining ISAF and how MNAs can work with ISAF. These visits and the candidate's efforts are very positive for ISAF. Candidates have the right to know the number of votes which their efforts have yielded.

In any democratic organization today, ballots are usually secret but the number of votes obtained by each candidate is informed.
