

Submissions

A submission from the Koninklijk Nederlands Watersport Verbond

Proposal:

Once a submission is validly put on the agenda it cannot be withdrawn or if it is withdrawn by the original submitter another eligible member can demand the submission to be dealt with.

Current position:

Current regulations do not seem to deal with this issue; however interpretation has been given that submissions can be withdrawn.

Reasons:

If submissions can be withdrawn potential submitters will be forced to all submit the same submission in order to ensure a certain submission remains on the table. This proposal ensures unnecessary administration.
