**Request for 2002 ISAF Calendar in Printed Form**

A submission from the Russian Yachting Federation

**Current Position**

Since 2001 the ISAF Calendar exists only in its electronic version.

**Proposal**

We propose and insist on having the 2002 ISAF Calendar in printed form, as it used to be for many decades before.

**Reason**

It would be much more convenient to look through and to work with such Calendar when it is in printed form composed into one brochure.

Perhaps, it is not necessary to have every club event to be included into the Calendar. It could easily be restricted to all ISAF events, worlds & continental championships, major regattas, other principal events like OPEN national championships, match race events of Grade 1 and 2, tec.
