

Consultation of MNAs Regarding Event Officialising

A submission from the French Sailing Federation

Proposal

The Federation Francaise de Voile recommends that before officialising any event inscribed on the ISAF Fixture List, the MNAs shall be consulted, this being certainly automatically possible through a computer.

Reason

1. Frequently, MNAs discover that an event is scheduled on their territory, only by reading the fixture list, and such situation is inadmissible.
2. More and more often, events are inscribed on the fixtures list directly by the organisers, though they do not meet any criteria justifying the “international event” name, this registration on the fixture list being used in fact for advertising purposes by the organisers.
