

Application for Designation as a Recognized Class

RS Feva Class

An application from the RS Feva Class Association

Proposal:

That ISAF recognise the RS Feva as an ISAF recognized class.

Current Position:

The RS Feva does not hold ISAF class status.

Reason:

The 3.64m length RS Feva was launched less than three years ago and there are already over one thousand two hundred boats sailing all over the world. This success reflects the boats unique appeal to young sailors with its modern design, 7 m² asymmetric spinnaker, exciting performance, realistic price and low maintenance construction. The RS Feva main and jib have a combined sail area of 8.6 m².
