Change to Double Handed Boy's Event for Event Open at the ISAF Youth World Sailing Championship

A submission from Yachting New Zealand

Current Position

ISAF Youth World Sailing Championship : 2 handed men's event.

Proposal

That the men's 2 person category at this event be changed to an open 2 person event for the 2002 event

Reason

In 2002 this category is using 29ers whose class rules allow mixed crews and permit mixed crews in their races (including World championships). While we recognise that predominantly there will be all male crews, countries should have the right to send mixed crews for this category.

This will encourage those mixed crews sailing 29ers to continue training together rather than splitting a crew.
