ISAF World Sailing Rankings

Regulation 24

A submission from the Deutscher Segler-Verband

PROPOSAL:

In the ISAF ranking list of the olympic classes shall be only listed sailors, according to a result list of any ISAF grade 1 – 3 regatta that is confirmed by the International Class Association.

CURRENT POSITION:

The ISAF ranking lists are not always based on results lists confirmed by the International Class Association.

REASON:

In the ISAF ranking list competitors appear who are not members of the International Class Association and so take unjustified advantage of any grading in the ISAF ranking list.

Therefore it is necessary that ISAF shall use for the ISAF ranking list only results that are confirmed by the International Class Association.
