

Qualification System for the 2008 Olympic Sailing Competition

Country Quotas at Qualification Events

A submission from the Slovenian Sailing Federation

Proposal:

Proposal that every country should have 2 two places in entry quota

We propose, that on European Championships, World Championships an Olympic qualification regatta every country should have 2 two crews in entry quota for each country.

Current Position:

See above

Reason:

Some classes have different measures for deciding who will enter the qualifications for the OG, EC and WC, like the **Star Class**, which in small countries turns away the interest for other classes like 49-er, Tornado, Star, Yngling, etc.
