**OTHER COMMITTEE – CONSTITUTION, EXECUTIVE, SAILING**

### **Class Name Change and Class Rule Changes**

A submission from the International Mistral One Design Organisation (IMCO)

#### **PROPOSAL:**

That the current Class name and Class Rules be changed to remove any specific reference to Mistral and to incorporate the requirements of ERS 2005-2008. The Class will be known as the INTERNATIONAL WINDSURFING ONE DESIGN CLASS (IWOD). The new Class Rules are attached where appropriate.

#### **CURRENT POSITION:**

The current Class name and Rules prohibit the Class's intention to introduce its 'white board' concept.

#### **REASON:**

The Class intends to introduce its 'white board' concept which would permit any approved commercial entity the right to brand its logos on Class legal equipment in return for a licensing fee payable to the ISAF and to market/sell such equipment worldwide using its own established distribution systems thereby broadening the public's access to Class legal equipment and introducing competition within the market place.
