

World Sailing Annual Conference

Publication of Submissions

A submission from Sail Canada

Purpose or Objective

To propose a white paper policy requiring that World Sailing publish all submissions at least thirty (30) days before the commencement of the Annual Conference (no later than September 30). This proposal does not include late submissions allowed under Regulation 15.7

Reasons

1. MNAs, members of Council, and members of committees and sub-committees require sufficient time to review the submissions and consult as required.
 2. In the last few years, World Sailing has been publishing the submissions in October. The substance and quality of the discussions at the Annual Conference would improve with at least thirty (30) days to review the submissions.
 3. Full discussion of submissions and preparation prior to the Annual Conference would improve transparency.
