Election of the President – Vice-Presidents

Regulation 7

A submission from the Royal Spanish Sailing Federation

Proposal
The ISAF President to be elected with a team of three Vice Presidents.
The other four Vice Presidents to be elected as currently.

Current Position
As stated in current Regulation 7.

Reason
In order for the Executive Committee to make the most of the skills of its members and be more effective the candidature for ISAF President should consist of the election of the President and three of his / her nominated Vice-Presidents.

By working in close confidence with the three nominated Vice-Presidents the President will be better able to develop his / her presidential campaign.

Our sport, like all others is developing rapidly. In addition to sailing, marketing, TV, promotion, economics, politics etc are just as important. Such skills are already known within ISAF but there is still a need be able to call upon the expertise of persons not necessarily involved in sailing but who would be able to make a valuable contribution to the sport..
