Race Officials Administration

Regulations 33 to 35

A submission from the Chairmen of the Race Official Committee and Constitution Committee

Proposal

That the policies and procedures regarding the recruitment, training, certification and supervision of race officials be removed from the regulations and be codified in policy and procedure documents to be adopted and published by the Race Officials Committee, under the supervision of the Executive Committee. In place of Regulations 33, 34 and 35 would be a single regulation delegating this responsibility to the Race Officials Committee.

The provisions in the regulations providing for a right of appeal by an aggrieved race official or applicant would be retained.

Current Position

Regulations 33, 34 and 35 govern the training, certification and supervision of race officials.

Reason

The recruitment, training, certification and supervision of the race officials is currently governed by complex regulations. This structure is difficult for race officials to follow and makes it difficult for the Race Officials Committee and its Sub-committees to administer the program.

If this submission is approved, it is envisaged that the following steps will be undertaken:

1. The Race Officials Committee and its Sub-committees will prepare policy documents and procedures governing all matters currently covered by the regulations.

2. The Constitution Committee and the Race Officials will prepare and present a submission deleting the affected portions of Regulations 33, 34 and 35 and a regulation delegating this responsibility for adopting policies and procedures for the training, certification and supervision of race officials.

3. The policy document and procedures adopted by the ROC and its Sub-committees would then be published on the ISAF website and communicated to all MNAs, Classes and race officials.
