**Olympic Sailing Competition**

**Training Facilities at Olympic Venues**

A submission from the Polish Yachting Association

**Proposal**

ISAF Technical Delegate(s) to make an agreement and to control the organizers of Olympic Games starting from 2012 Olympic Sailing Venue in Weymouth in achieving reasonable cost of access to training facilities.

**Current Position**

None.

**Reason**

Olympic venues used to offer extremely expensive access to training facilities, drastically higher than any other venues hosting sailing competition world-wide.

Obviously Olympic campaign used to be very expensive but higher costs definitely limit number of nations and minimize opportunities for countries do not having spectacular budgets, to successively compete against well developed ones.

Keeping reasonable costs of access to training venues will undoubtedly helps the Olympic Movement to be on its established way.
