**Youth Olympic Games**

Events to be included in the Youth Olympic Games

A submission from the Sailing Cook Islands, Fiji Yachting Association, Guam Sailing Federation, Korea Sailing Federation, Malaysia Sailing Association, Pakistan Sailing Federation and UAE Sailing and Rowing Federation

**Purpose or Objective**

To make sure the Events in the Youth Olympics has equipment available and actively sailed in at least 50% of member MNAs of ISAF

**Proposal**

Youth Olympics 2018 should have the following 4 events which are sailed in at least 50% of MNAs of ISAF:

1. Single Handed Dinghy Boys
2. Single handed Dinghy Girls
3. Single Handed Windsurfer Boys
4. Single Handed Windsurfer Girls

**Current Position**

Events Committee proposal to eliminate Single Handed Dinghy’s and replace with Mixed Kitesurfing and Mixed multihull will greatly reduce the number of countries who try to qualify and compete in the Youth Olympics.

**Reason**

1. Olympics are first and foremost are about universality
2. Media is important to Olympics but in the above 4 categories Media can be managed with good production
3. Youth Sailing is declining in the world and a move to use equipment and events at the youth level which are not universal will ensure the further decline of the sport
4. In Olympic Games sailing has 10 medals and hence to have 2-4 events which are only for media is justifiable
5. In Youth Olympics with only 4 events, it is very important for all ISAF MNAs to have equal opportunity to compete. Changing equipment which is not universally available will increase costs for all smaller MNAs and decrease the growth of the sport in the entire developing world
