Development of National Yacht Training Programmes

Training Resources

A submission from the Chairman of the Development and Youth Committee

Purpose or Objective

To provide ISAF MNAs with resources to assist in the development of National Yacht Training Programmes

Proposal

The ISAF Training Resources have proven to be very popular with MNAs without their own publications and the demand for additional resources is great. With Yacht Training programmes being a good way to keep the parents of younger sailors engaged in the sport it would be beneficial for the ISAF Training and Development to commission resources to provide a basic yacht training template of similar resources as already provided for the Dinghy Scheme.

Current Position

As above.

Reason

Training Resources will help our members to provide their sailors with material that is MNA specific and provide a source of internal revenue to help put back into the National Sail Training Programme across all disciplines.
