**Equipment Rules of Sailing**

Definition ERS C.6.4(k)

A submission from the Chairman of the Equipment Committee

**Purpose or Objective**

To add the definition of hull appendage depth.

**Proposal as follows:**

To add a new definition to ERS C.6.4(k) as follows:

C.6.4(k) HULL APPENDAGE DEPTH

The maximum vertical distance between the hull shell or a measurement point as specified in the class rules and the lowest point of a hull appendage in its lowest position.

**Current Position**

See above.

**Reasons**

To provide classes with an alternative measurement to draft where appropriate.
