Windsurfing to be Included in the Connect to Sailing Programme

A submission from the Chairman of the Windsurfing Committee

Proposal

As a part of the sailing world, windsurfing should be included in the Connect to Sailing Programme. Windsurfing should be included in the same way as the dinghy classes.

Current Position

Windsurfing is still not properly included in the ISAF Connect to Sailing Programme and in its associated initiatives.

Reason

There should be no differences between dinghy sailing and windsurfing and both should be included in the ISAF Connect to Sailing Programme and its associated initiatives.
