The Equipment Rules of Sailing

Introduction - Terminology

A submission from the Chairman of the Equipment Committee

Proposal

Amend as follows:

A term used in its defined sense is printed in \textbf{“bold” type} if defined in the ERS and in \textit{“italic” type} if defined in the RRS. Other words and terms are used in the sense ordinarily understood in general use in English.

Current Position

As above

Reason

To make it clear that undefined terms within the document should be used in an ordinary sense.
