

2021 – 2028 Event Strategy

Sailing World Championships

A submission from the Chairman of the Events Committee

Purpose or Objective

Following the Council adoption of the 2021 – 2028 Event Strategy in principle at the 2019 Mid-Year Meeting the definitions of the Sailing World Championships need to be amended in the Regulations.

Proposal

Delete Regulations 24.3.1, 24.3.5 and 24.3.6.

Current Position

The current Regulations define the calendar, bid process and key deadlines for the Sailing World Championships the requirements for the Sailing World Championships in the Regulations may be inconsistent with that Strategy in the future.

Reasons

1. The 2021 – 2028 Event Strategy proposes calendar planning windows for key Olympic class events including the Sailing World Championships which may differ from the current regulation.
 2. The bid process and timelines for key deadlines for future editions of the Sailing World Championships will be updated in line with the 2021-2028 Event Strategy and communicated to all MNAs.
 3. This change does not affect The Hague 2022 Sailing World Championships which is already confirmed for August 2022.
