The Equipment Rules of Sailing

G.1.4(n) Stiffening

A submission from the Chairman of the Equipment Committee

Purpose or Objective
To clarify and to achieve a more general definition of “stiffening”.

Proposal

(n) STIFFENING
A piece of permitted material added to stiffen a part of a sail.
Typical examples of stiffening would include corner boards and battens.

Current Position
As above.

Reason
To clarify and to achieve a more general definition of “stiffening”.
