The Equipment Rules of Sailing

H.5.1 Conditions of Sail

A submission from the Chairman of the Equipment Committee

Proposal

Amend as follows:

H.5.1 Conditions of the Sail

The condition of the sail for measurement shall:

be dry,
not be attached to spars or rigging,
have all battens removed,
have pockets of any type flattened out,
have just sufficient tension applied to remove wrinkles across the line of the measurement being taken, and
have only one measurement taken at a time.

Current Position

See above.

Reason

Amend wording to make more consistent with other rules and clarify.
