

## Equipment Rules of Sailing

### H.1.3 CERTIFICATION CONTROL

A submission from the Chairman of the Equipment Committee

#### Purpose or Objective

To delete the ERS term Certification Control.

#### Proposal

**H.1.3** ~~An official measurer shall only carry out certification control in another country with the prior agreement of the MNA for that country.~~

#### Current Position

As above

#### Reason

1. The definition of **official measurer** outlines their roles and responsibilities. This definition is a duplication of those responsibilities and is not required as a separate rule.
