The Equipment Rules of Sailing

New Rule: H.5.4 Sail Corners

A submission from the Chairman of the Equipment Committee

Purpose or Objective
New rule.

Proposal

H.5.4 Grounds for not Certifying a Sail

If the location of a sail corner measurement point, based on extension of the adjacent sail edges, is uncertain, the sail shall not be certified.

Current Position
None

Reasons
To provide instruction on how sail corners are to be defined and under what circumstance sails should be rejected for measurement.

The instruction is currently in the ISAF Guide to Sail Measurement and is thereby not a rule.
