2020 Olympic Sailing Competition

Quotas

A submission from Cyprus Sailing Federation

Purpose or Object

Number of competitors per event in the 2020 Olympic Games in Tokyo

Proposal

1.   Quotas:

			Current Situation			CYP suggestion	
Gender	**Event**	**Class**	**Boats**	**Athletes**		**Boats**	**Athletes**
Men (5)	Windsurfer	RS:X	30	30		29	29
	One Person	Laser	40	40		41	41
	One Person (Heavyweight)	Finn	20	20		16	16
	Two Person	470	20	40		19	38
	Skiff	49er	20	40		17	34
Women (4)	Windsurfer	RS:X	40	40		30	30
	One Person	Radial	50	50		48	48
	Two Person	470	20	40		23	46
	Skiff	49erFX	20	40		17	34
Mixed (1)	Multihull	Nacra 17	20	40		17	34

Current Position

As above

Reasons

1.   The suggested reductions involve the "fast" (classes) events which expressed their wishes to do "stadium racing" and use a format which calls for shorter races close to the shore which

makes it impractical to use big fleets and the reductions suggested will do just that, while keeping better fleets numbers for the "traditional" (classes) events.

2. It was taken into consideration how many MNAs have tried to get the qualification for the 2016 Olympic Games. The "% MNAs" represents the percentage of how many countries were finally qualified:

Event	Class	MNA participation	RIO 2016		
			Boats	Athletes	% MNA
Windsurfer	RS:X	56	36	36	64.29
One Person	Laser	85	46	46	54.12
One Person (Heavyweight)	Finn	36	23	23	63.89
Two Person	470	43	26	52	60.47
Skiff	49er	36	20	40	55.56
Windsurfer	RS:X	37	26	26	70.27
One Person	Radial	69	37	37	53.62
Two Person	470	33	20	40	60.61
Skiff	49erFX	29	20	40	68.97
Multihull	Nacra 17	35	20	40	57.14
			380		

3. It was also taken into consideration, which class / event had the highest MNA's participation:

Class	MNA participation
Laser	85
Radial	69
RS:X	56
470	43
RS:X	37
Finn	36
49er	36
Nacra 17	35
470	33
49erFX	29

4.   It has been calculated the increase / decrease of the MNA's participation if we consider that the same number of MNAs will try to qualify for the Olympics 2020.

Event	Class	MNA participation	RIO 2016				2020			
			Boats	Athletes	% MNA		Boats	Athletes	% MNA	decrease/ increase
Windsurfer	RS:X	56	36	36	64.29		29	29	51.79	-12.50
One Person	Laser	85	46	46	54.12		41	41	48.24	-5.88
One Person (Heavyweight)	Finn	36	23	23	63.89		16	16	44.44	-19.44
Two Person	470	43	26	52	60.47		19	38	44.19	-16.28
Skiff	49er	36	20	40	55.56		17	34	47.22	-8.33
Windsurfer	RS:X	37	26	26	70.27		30	30	81.08	10.81
One Person	Radial	69	37	37	53.62		48	48	69.57	15.94
Two Person	470	33	20	40	60.61		23	46	69.70	9.09
Skiff	49erFX	29	20	40	68.97		17	34	58.62	-10.34
Multihull	Nacra 17	35	20	40	57.14		17	34	48.57	-8.57
				380				**350**		
								175.00		**women/men**

5.   The proposed numbers for the Men Classes have been suggested in order to cover at least around the 50% of the MNAs which will try to qualify for the Olympics, based on the numbers for the qualifications of 2016.

6.   The proposed numbers for the Women Classes have been suggested based on the numbers of the MNAs which tried to qualify for 2016.
