In 2010 I donated the start up capital of Eur 45 000 to set up a business to build Finns and masts in South Africa to rejuvenate an Olympic class and make affordable boats available to young sailors. To date 20 odd boats have been built with a capital subsidy of around Eur 2250 per boat. For my capital contribution I received a half share in the company. My partner subsidizes the operating costs. The company has made losses every year. But it has succeeded in rejuvenating our small fleet and given the youth an opportunity to sail an Olympic boat. The last time Finns had been built in the country was in the early 1990's.

Directorship in Path Yachting Foundation (non-for-profit fund) is on a friendship basis, the fund has no legal entity and my position can be better described as additional duty I fulfill for the UBO of the yachting I manage. He is a passionate sailor. Has cruised around the world, is building a 146ft at the moment under my supervision and would like to give a small helping hand to those passionate amateurs that lack funding for fulfilment of their dreams. For example, the one and only project I take care of is Irina Gracheva racing https://www.facebook.com/irinagrachevaracing/ She is the first russian solo amateur sailor to cross the Atlantic in Mini Transat. My UBO has supported purchase of the boat with some funds and I support her with Amy knowledge of writing texts and making educational posts and videos. I do not see here any conflict of interest, as the initiative of the Foundation is a good will of my UBO to help some amateurs fulfil their dreams. 6.
