#### Venue good points:

- The Worlds in Sneek were well organized with two fleets and a total of 91 registered boats. Social functions were also well arranged. Sailors enjoyed the regatta with many compliments to the organization and two fleets format (though some were not completely happy with the two fleet format) which was required due to the size of the sailing area.
- Sailing conditions were challenging with some boats requiring assistance.
- Racing in front of the harbour
- Good facilities on the water and on the Island / harbour
- Split fleets
- Mooring facilities
- Camping facilities
- Socials

#### Recommendations for future World Championship events:

- Try to have camping facilities as nearby as possible. Create split fleets if fleet size is >50 boats.

#### Recommendations - Generally in terms class logistic of running a World Championship:

- The organizers from Sneek are planning to publish hosting guidelines to assist in the organization of future world championships.
