

## INTERNATIONAL 470 CLASS ASSOCIATION

The following amendments to the Building Specification / Class Rules have been approved by the class rules sub committee to be effective 12<sup>th</sup> February 2009.

### **Official Drawing**

The Building Specification is updated to version to 12/02/2009. The change relates to clarifying the wording on multi-axial fabrics in the construction notes.

### Construction notes

2. The glass reinforcement used for the GRP laminates shall be E-glass fibres as chopped strand mat, or woven rovings or multi-axial fabrics (or unidirectional rovings only where stated). The resin used shall be unsaturated polyester resin, used in accordance with the manufacturers instructions. The use of other materials or the intentional entrapment of air in the GRP laminate is prohibited.

### Secretariat Note to Builders:

In the builder license agreement with ISAF it states "Any proposed change to the production tooling, hull characteristics or layout, method of construction, material or specification shall be submitted to ISAF for approval." Therefore if you are proposing any changes please contact the ISAF Technical Department (technical@isaf.co.uk)
