

# Class Rule Changes

International Contender Class Association

Effective date: 01<sup>st</sup> July 2019

Status: Approved

## Amendment One

---

### 2. BUILDERS

Old:

- 2.3 Bona fide amateur builders are permitted for wood construction or for the completion of hull kits only and are limited to the construction and registration of one Contender per year, and this shall be for their own use and not for immediate resale. A hull kit comprises at the minimum a glass fibre hull built by a licensed builder.

Amend to read:

- 2.3 Bona fide amateur builders are limited to the construction and registration of one Contender per year, and this shall be for their own use and not for immediate resale.

## Amendment Two

---

### 7. HULL MATERIALS

Old:

#### 7.2 Composite hull

A composite hull comprising GRP hull shell with wooden cockpit and deck is permitted. The GRP hull shell shall be made in an official mould by a builder licensed by the ISAF and shall comply with these rules, in particular 7.1(ii) above. The deck and cockpit may be of amateur construction and shall comply with these rules, in particular 9(4).

Amend to read:

#### 7.2 Composite hull

A composite hull comprising GRP hull shell with wooden cockpit and deck is permitted. and shall comply with these rules, in particular 7.1(ii) above. The deck and cockpit may be of amateur construction and shall comply with these rules, in particular 9(4).
