INTRODUCTION

The Hobie Wild Cat Class has been created as a strict one-design catamaran where the true test when raced is between crews and not boats and equipment. The fundamental objective of these class rules is to ensure that this concept is maintained.

Hobie Wild Cat hulls, hull appendages, tillers, rig and sails shall only be manufactured by the licensed manufacturers. Equipment is required to comply with the Hobie Wild Cat Building Specification.

Hobie Wild Cat hulls, hull appendages, rig and sails may, after having left the manufacturer, only be altered to the extent permitted in Section C of the class rules.

Owners and crews should be aware that compliance with rules in Section C is NOT checked as part of the manufacturing process.

Rules regulating the use of equipment during a race are contained in Section C of these class rules, in ERS Part I and in the Racing Rules of Sailing.

This introduction is intended to provide a non-binding overview. The Hobie Wild Cat Class Rules proper begin on the next page.
