INTRODUCTION

This introduction only provides an informal background and the International Swan 60 Class Rules proper begin on the next page.

Swan 60 hulls, hull appendages, rigs and sails are manufacturing controlled.

Swan 60 hull and hull appendages shall only be manufactured by Oy Nautor AB Equipment is required to comply with the International Swan 60 Building Specification and is subject to an ISAF approved manufacturing control system.

Swan 60 hulls, hull appendages, rigs and sails may, after having left the manufacturer, only be altered to the extent permitted in Section C of the class rules.

Owners and crews should be aware that compliance with rules in Section C is NOT checked as part of the certification process.

Rules regulating the use of equipment during a race are contained in Section C of these class rules, in ERS Part I and in the Racing Rules of Sailing.

Note: Where the class permits IHC it should be mentioned here which items may be produced under IHC.

PLEASE REMEMBER:

THESE RULES ARE CLOSED CLASS RULES WHERE IF IT DOES NOT SPECIFICALLY SAY THAT YOU MAY – THEN YOU SHALL NOT.

COMPONENTS, AND THEIR USE, ARE DEFINED BY THEIR DESCRIPTION.
PART I – ADMINISTRATION

Section A – General

A.1 LANGUAGE
A.1.1 The official language of the class is English and in case of dispute over translation the English text shall prevail.
A.1.2 The word “shall” is mandatory and the word “may” is permissive.
A.1.3 Except where used in headings, when a term is printed in “bold” the definition in the ERS applies and when a term is printed in “italics” the definition in the RRS applies.

A.2 ABBREVIATIONS
A.2.1 ISAF International Sailing Federation
MNA ISAF Member National Authority
ICA International Swan 60 Class Association
NCA National Class Association
ERS Equipment Rules of Sailing
RRS Racing Rules of Sailing
RORC Royal Ocean Racing Club
RO Royal Ocean Racing Club Rating Office
EC Executive Committee of the International Swan 60 Class Association
OSR ISAF Offshore Special Regulations (www.sailing.org/specialregs)

A.3 AUTHORITIES
A.3.1 The international authority of the class is the ISAF which shall co-operate with the ICA in all matters concerning these class rules.
A.3.2 Notwithstanding anything contained herein, the certification authority has the authority to withdraw a certificate and shall do so on the request of the ISAF.
A.3.3 No legal responsibility with respect to these Class Rules, or accuracy of measurement, rests with any certification authority, any official measurer. Any MNA, or any NCA. No claim arising from these Class Rules can be entertained.

A.4 ADMINISTRATION OF THE CLASS
A.4.1 ISAF and EC have delegated its administrative functions of the class to the class manager.

A.5 CLASS RULES CHANGES
A.5.1 At Class Events – see RRS 89.1.d) – ISAF Regulation 10.5(f) applies. At all other events RRS 87 applies.
A.5.2 These Class Rules shall not be varied by notice of race and/or sailing instructions except as provided by A.5.3.

A.5.3 Notices of race and/or sailing instructions may vary these Class Rules in respect of rules C.2.1, C.2.2, C2.3, C2.4, C2.5, C2.6, C4.1, C11.2, C.11.3(a) & C.11.3(b) only.

A.6 CLASS RULES AMENDMENTS
A.6.1 Amendments to these class rules are subject to the approval by the EC and ISAF in accordance with the ISAF Regulations.

A.6.2 An NCA shall not amend these Rules other than Rules C.2.1, C.2.2, C2.3, C2.4, C2.5, C2.6, C4.1, C11.2, C.11.3(a) & C.11.3(b), for racing within its jurisdiction other than Area Championships. Any such changes shall be approved by 70% of NCA members and the RO who may impose limitations on their application.

A.6.3 An NCA may prescribe that standard items of equipment need not be carried aboard for racing within its jurisdiction other than Area Championships.

A.7 CLASS RULES INTERPRETATION
A.7.1 Interpretation of class rules shall be made in accordance with the ISAF Regulations.

A.8 INTERNATIONAL CLASS FEE AND ISAF BUILDING PLAQUE
A.8.1 The licensed hull builder shall pay the International Class Fee.

A.8.2 ISAF shall, after having received the International Class Fee for the hull, send the ISAF Building Plaque and a measurement form to the licensed hull builder.

A.9 SAIL NUMBERS
A.9.1 Sail numbers shall be issued by the MNA.

A.10 HULL CERTIFICATION
A.10.1 A certificate issued by the RO shall record the following information:
(a) Sail number
(b) Owner
(c) Craft identification number
(d) Date of issue of initial certificate
(e) Date of issue of certificate
(f) Corrector weight mass
(g) Factory fitted options

A.11 INITIAL HULL CERTIFICATION
A.11.1 For a certificate to be issued to hull not previously certified:
(a) The builder shall enter all required details onto the certification control form.
(b) The certification control form and certification fee shall be sent to RO.
(c) Upon receipt of a satisfactorily completed documentation and certification fee the RO may issue a certificate. The RO shall retain the original certification control form.

A.12 VALIDITY OF CERTIFICATE

A.12.1 A hull certificate becomes invalid upon:

(a) Other than permitted routine maintenance any alteration or repair to items recorded on the certification control form as required under A.11,

(b) Any alteration to official corrector weights,

(c) Any alterations to the boat resulting in a change of over 50 kg of the empty weight as shown on the certificate.

(d) The date of expiry,

(e) Change of ownership,

(f) The issue of a new certificate,

(g) withdrawal by the certification authority,

A.13 HULL RE-CERTIFICATION

A.13.1 Upon expiry the owner shall apply to the certification authority for a new certificate together with any re-certification fee that may be required. A new certificate shall then be issued to the owner.

A.13.2 Upon change of ownership the new owner shall apply to the certification authority for a new certificate together with any re-certification fee that may be required.

A.14 RETENTION OF CERTIFICATION DOCUMENTATION

A.14.1 The certification authority shall:

(a) retain the original documentation upon which the current certificate is based.

Section B – Boat Eligibility –Not In Use
PART II – REQUIREMENTS AND LIMITATIONS

The crew and the boat shall comply with the rules in Part II when racing. In case of conflict Section C shall prevail.

The rules in Part II are closed class rules. Certification control and equipment inspection shall be carried out in accordance with the ERS except where varied in this Part.

Section C – Conditions for Racing

C.1 GENERAL

C.1.1 RULES

(a) RRS 50.4 shall not apply.
   A spinnaker is defined as a sail set forward of the foremost mast with half width greater than 75% of foot length. Any other sail tacked down forward of the foremost mast is a headsail.

(b) ERS Part I – Use of Equipment shall apply except where deleted or amended by these class rules.

(c) ERS Part II, Definitions, Section G, Sail Definitions, shall apply except as stated by Swan 60 Rules.

(d) The boat shall be equipped to ISAF Offshore Committee Special Regulations Category 3 without Liferafts. However the Notice of Race may prescribe additional requirements.

C.2 CREW / HELMSMAN

ISAF Regulation 22, ISAF Sailor Classification Code, shall apply.

C.2.1 LIMITATIONS

The crew shall consist of no more than 7 persons either unclassified or classified as Group 3 under ISAF Regulation 22, Sailor Classification. An additional Group 3 crew member who is an approved boat captain as per rule C.2.8 may be part of the crew. All other crew shall hold a valid Group 1 classification.

C.2.2 CREW NUMBERS

The total number of crew shall be no greater than 18.

C.2.3 HELMSMAN

(a) The Swan 60 Class is an ‘Owner Driver’ Class. The provisions below for helmsmen other than bone fide owners are included solely:
   (i) to provide for relief helmsmen during a race.
   (ii) to accommodate charters.
   (iii) to provide for an owner or charter helmsman unavoidably absent for part of an event.
(b) Boats shall be helmed by their bone fide owners, except as provided below.

(c) Exceptionally, in emergency boats may be helmed by any crew member.

C.2.4 RELIEF HELMSMEN

(a) An owner or charterer may request permission for relief helmsmen in writing to the Class Manager a minimum of 14 days before a race. In approving relief helmsmen, the Class Manager will consult with the owners’ panel defined by C.2.7 below.

(b) A relief helmsman is defined as: A member of the crew, currently classified as ISAF Group 1 and who in the last 5 years has only been classified as Group 1, or would have been so classified had he held a classification, nominated by the owner or charterer to helm the boat as permitted by Rules C.2.4 (c) and (d).

(c) Except as provided by Rules C.2.3 (c), C.2.4 (e), and C.2.6, in a race with a time limit up to 4 hours a relief helmsman shall not helm the boat:

(i) at the start or finish of a race.

(ii) at any mark rounding.

(iii) for more than a total of 20 minutes.

(d) Except as provided by Rules C.2.3 (c), C.2.4 (e), and C.2.6, in a race with a time limit of more than 4 hours, the boat shall be helmed by her bona fide owner or charter helmsman for the first hour of the race. Thereafter the boat may alternatively be helmed by any previously approved relief helmsmen.

(e) Notices of race may modify Rules C.2.4 (c) and (d).

C.2.5 CHARTERS

(a) Charter helmsmen shall request permission to helm in writing to the Class Manager a minimum of 14 days before a race. In approving charter helmsmen, the Class Manager will consult with the owners’ panel defined by Rule C.2.7.

(b) A charter helmsman shall:

(i) be Classified Group 1 under the ISAF Sailor Classification Code.

(ii) in the last 5 years have only been classified as Group 1, or would have been so classified had he held a classification.

(c) At the Swan 60 World Championships, Gold Cup or at a Swan 60 Area Championship event a boat which has been chartered shall not take the boat owner on board while racing.

C.2.6 OWNER OR CHARTER HELMSMAN ABSENT

In the unavoidable absence of an owner or previously approved charter helmsman:

a) at the Swan 60 World Championships, Gold Cup or at a Swan 60 Area Championship event, a previously approved relief helmsman may helm the boat for races on not more than one day.
b) at other events, an owner or charterer may request permission from the protest committee for a previously approved relief helmsman to helm the boat as necessary.

c) at all events, if no relief helmsman has been previously approved, then approval for a relief helmsman shall first be sought from the Class Representative (who shall be a member of the Executive Committee) using the criteria defined by rule C.2.4 (b).

C.2.7 OWNERS PANEL

(a) At events other than the Swan 60 World Championships, Gold Cup or a Swan 60 Area Championship event, any dispute concerning a helmsman shall be referred to a panel of a minimum of three owners appointed by the NCA. At the Swan 60 World Championships, Gold Cup or at a Swan 60 Area Championship event, the panel shall be appointed by the EC and may additionally include members of the EC in an advisory but non-voting capacity.

(b) In considering applications for permission as a relief or charter helmsman, the panel:
   (i) Shall confirm eligibility under Rules C.2.4 (b) or C.2.5 (b).
   (ii) May consider and use any other facts that it considers relevant.

(c) Any owner or charterer may request a review of the eligibility of any helmsman. In considering such reviews, the panel:
   (i) Shall if relevant confirm eligibility under Rules C.2.4 (b), C.2.5 (b) and C.2.6.
   (ii) Shall if relevant consider and confirm bone fide ownership or charter.
   (iii) May consider and use any other facts that it considers relevant.
   (iv) Shall in accordance with ISAF Regulation 22 consult with the ISAF Sailor Classification Commission before rejecting any helmsman on the grounds that his current classification is incorrect.

(d) Panel findings shall be final and shall not be subject to review by any other body.

(e) Race results prior to any panel finding shall be unaffected, except that when the panel finds that there may have been a gross breach of good manners or sportsmanship, it shall report its findings to the protest committee. All panel findings shall be reported to the RO.

(f) The Race Committee shall post the names and ISAF Registration Numbers of all helmsmen on the Official Noticeboard at an event.

C.2.8 BOAT CAPTAIN

A crew member with a Group 3 classification may apply to be deemed as the “boat captain” by the helmsman eligibility panel. The crew member’s primary livelihood shall be the maintenance and care of boats with specific duties assigned as part of this activity. The “Boat Captain” shall be employed on a fulltime or part-time basis by the owner of the yacht upon which crew members race. Application for boat captain status shall be received by the class manager a minimum of 28 days before a race. (A list of the approved boat captains is held by the Class Manager).
C.3 PERSONAL EQUIPMENT
C.3.1 MANDATORY
   (a) Personal equipment shall be carried to the minimum standard ISAF Offshore Committee Special Regulations Category. However the Notice of Race may prescribe additional requirements.

C.4 ADVERTISING
C.4.1 LIMITATIONS
   Advertising shall only be displayed in accordance the ISAF Advertising Code. (See ISAF Regulation 20).

C.5 CLASS ASSOCIATION MEMBERSHIP
C.5.1 The owner (or charterer) shall be a current member of the Swan 60 Class Association. The EC may at its discretion issue a One-Event Membership to a non-member charterer, restricted to a maximum of one event per calendar year. The fee for this shall be set by the EC.

C.6 PORTABLE EQUIPMENT
C.6.1 MANDATORY
   (a) FOR USE
      (i) A second anchor. The minimum combined weight of anchor, chain & warp for the main anchor shall be 56 kg and for the second anchor 43 kg.

C.6.2 OPTIONAL
   (a) FOR USE
      (i) There are no restrictions on portable equipment except where stated in these class rules.

C.7 BOAT
C.7.1 WEIGHT
   (a) The measurement condition is defined as fully rigged with mast, boom, bowsprit, standing rigging, halyards, main sheet and vang. All other loose equipment including but not limited to sails, sheets and loose deck gear, safety equipment, anchors, fuel, water, food, catering utensils, personal effects, and tools shall be removed. Fixed extras such as generators, watermakers, electronic equipment etc. may be left aboard and shall be recorded on the certification control form.

C.7.2 Minimum weight in empty condition shall be 21000 kg.

C.7.3 Following weighing in the measurement condition by an official measurer, removal of any corrector weights or changing the boat weight by removing or adding fixed items shall invalidate the certificate. A new certificate shall be issued in accordance with Rule A.13.
C.7.4 CORRECTOR WEIGHTS
(a) **Corrector weights** shall be permanently installed in the locations shown in Appendix 4 when the **boat** weight is less than the minimum requirement.

C.8 HULL
C.8.1 MODIFICATIONS, MAINTENANCE AND REPAIR
(a) With the exception of normal maintenance, which includes painting and minor repairs, no modifications are permitted to the hull external surface. The gelcoat surface shall not be removed except by light sanding prior to painting.

(b) Routine maintenance such as painting and polishing to the hull and deck is permitted without new **certification control** and **re-certification**.

(c) The minimum specification of internal equipment and fitout, engine, strut drive and propeller is defined by D.3.1. No item shown shall be moved or removed. Modifications to required internal equipment are permitted provided that the weight of the item is not reduced, except that with the exception of fairing, no modifications shall be made to the strut drive or propeller.

(d) The settee cushions and mattress may be moved to positions where there is less chance of getting wet during racing provided that the location chosen remains the same for the duration of the event.

C.8.2 FITTINGS
(a) The minimum specification of deck equipment and fitout is defined by Nautor drawing 0001283, revision A, 18.03.2009, ‘DECK ARRANGEMENT A’. No item may be added or its location altered without prior permission of Class Manager.

C.9 HULL APPENDAGES
C.9.1 MODIFICATIONS, MAINTENANCE AND REPAIR
(a) **Keel** and **Rudder** fairing and painting is permitted without new **certification control** and **re-certification** provided that the minimum dimensions detailed by Appendices 2 and 3 are met.

(b) The class manager shall be informed before starting any work on the appendages that is likely to result in:
   (i) adding or removing more than 15kg of keel material
   (ii) adding or removing any rudder blade laminate
C.10 RIG

C.10.1 MODIFICATIONS, MAINTENANCE AND REPAIR
(a) No component may be moved or modified. Replacement components may be from any source provided that the weight of the component is not reduced.
(b) Materials for running rigging are optional.

C.10.2 MAST
(a) DIMENSIONS
(i) two limit marks of minimum width 25 mm shall be indelibly marked around the mast.
(ii) With the mast jacked up, the upper edge of the lower limit mark shall not be more than 2200 mm (To Be Confirmed) mm above the mast datum point (see F.2.4).
(ii) The lower edge of the upper limit mark shall not be more than 24300 mm above the upper edge of the lower limit mark.

C.10.3 BOOM
(a) DIMENSIONS

<table>
<thead>
<tr>
<th>Limit mark width</th>
<th>Minimum</th>
<th>Maximum</th>
</tr>
</thead>
<tbody>
<tr>
<td>Outer point distance</td>
<td>25 mm</td>
<td>-</td>
</tr>
<tr>
<td></td>
<td>8560 mm</td>
<td></td>
</tr>
</tbody>
</table>

(b) USE
(1) The intersection of the aft edge of the mast spar and the top of the boom spar, each extended as necessary, shall not be below the upper edge of the mast lower limit mark when the boom spar is at 90° to the mast spar.

C.10.4 BOWSPRIT
(a) DIMENSIONS

<table>
<thead>
<tr>
<th>Distance from front face of the mast spar at deck level to the extremity of the bowsprit, measured on or near the centre line of the boat.</th>
<th>Minimum</th>
<th>Maximum</th>

</tr>
<tr>
<td>7050 mm</td>
<td>(TBC)</td>
<td></td>
</tr>
<tr>
<td>7090 mm</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

(b) USE

(i) shrouds and headstay shall not be adjusted.

(ii) the mast spar position at deck level shall not be adjusted.

(iii) The mast heel and mast at deck level shall be securely fixed and shall not be adjusted in any plane.

C.11 SAILS

C.11.1 MODIFICATIONS, MAINTENANCE AND REPAIR

(a) Routine maintenance such as small repairs, addition of secondary reinforcement, additions of tell tales and camber stripes is permitted without new certification control and re-certifying.

(b) To repair sails during an event requires permission by the race committee (the Notice of Race or Sailing Instructions may allocate this function with a nominated class representative approved by the EC)

(c) Battens may be placed in the batten pockets

C.11.2 LIMITATIONS

(a) Not more than 1 mainsails, 4 headsails, 4 spinnakers, 1 OSR Heavy Weather Jib, 1 OSR Storm Jib and 1 OSR Storm Trysail (mandatory with non OSR compliant reefable mainsails) shall be carried aboard.

(b) Unless otherwise prescribed by a Notice of Race, not more than 2 mainsails, 5 headsails, 5 spinnakers, 1 OSR Heavy Weather Jib, 1 OSR Storm Jib and 1 OSR Storm Trysail may be presented for equipment inspection for an event.

C.11.3 MAINSAIL

(a) IDENTIFICATION

The national letters and sail numbers shall comply with the RRS.

(b) USE

(1) The sail shall be hoisted on a halyard. The arrangement shall permit hoisting and lowering of the sail whilst afloat.

(2) The highest visible point of the sail, projected at 90° to the mast spar, shall not be set above the lower edge of the mast upper limit mark. The intersection of the leech and the top of the boom spar, each extended as necessary, shall not be behind the fore side of the boom outer limit mark.
C.11.4 HEADSAIL
(a) IDENTIFICATION
   (1) The national letters and sail numbers are not required.

C.11.5 SPINNAKER
(a) IDENTIFICATION
   The national letters and sail numbers shall comply with the RRS.

C.11.6 SAIL ROYALTY LABELS
(a) All sails, except storm jib and storm trysail shall carry a numbered sail royalty label adjacent to the tack of the sail.
(b) A boat shall be entitled to royalty labels for use only on sails certified before 1st January 2013.
(c) A boat shall be entitled to 1 mainsail royalty label, 2 headsail royalty labels, and 2 spinnaker royalty labels for calendar year. Plus for each Swan 60 Class Event completed in a calendar year 0.5 royalty label may be used during that calendar year. A maximum of 0.5 label may be transferred to the following calendar year.
(d) The EC shall decide and announce by 1st September of each year the number of royalty labels permitted for the following year. If no announcement is made, then a boat shall be entitled to 1 mainsail royalty label, 2 headsail royalty labels, and 2 spinnaker royalty labels for the following calendar year.
(e) With the exception of (b) above, sail royalty labels shall only be used on sails certified during the current year.
(f) Boats shall apply and pay for sail royalty labels to the Swan 60 Class Association which will keep a record of the royalty label numbers supplied to boats.
(g) Sail royalty labels are not transferable between boats. A sail transferred between boats shall have a new royalty label attached from the annual allocation of the boat to which the sail is transferred. Exceptionally, boats under charter may use sails with royalty labels allocated to either the charterer’s boat or the chartered boat, but may not use sails from both boats.
(h) A boat under charter to a person who is not (and has not been for the preceding 12 months) an owner of a Swan 60 shall be entitled to 1 mainsail royalty label, 3 headsail royalty labels and 3 spinnaker royalty labels. Sails with royalty labels supplied under this paragraph shall not become part of the boat’s sail inventory at the conclusion of the charter.
(i) A new boat, or a boat which has not competed in a Swan 60 Class event for a minimum of 2 years, shall be entitled to 2 mainsail royalty labels, 5 headsail royalty labels including 1 for the OSR heavy weather jib, and 4 spinnaker royalty labels in the calendar year.
in which she first applies to the Swan 60 Class Association for a class certificate.
Section D – Hull

D.1 GENERAL

D.1.1 RULES
(a) The hull shall comply with the class rules in force at the time of initial certification.

D.1.2 CERTIFICATION
See Rule A.11

D.1.3 IDENTIFICATION
(a) The hull shall carry the ISAF Plaque permanently displayed.

D.1.4 BUILDERS
(a) The sole builder of Swan 60’s is Oy Nautor AB.

D.2 HULL, DECK, BULKHEADS, INTERIOR FITOUT

D.2.1 MATERIALS & CONSTRUCTION
(a) Swan 60’s shall only be built from approved Class moulds in accordance with these class rules including the official plans and specifications as detailed by Appendices 1 to 5
(b) The hull shape shall comply with Appendix 1.

D.2.2 CONSTRUCTION
(a) The hull deck and bulkheads shall be built in accordance with the construction drawings.

D.3 ASSEMBLED HULL

D.3.1 FITTINGS
(a) MANDATORY
(i) The minimum specification for internal equipment is as shown by Nautor interior arrangement drawings.

(b) OPTIONAL
Any addition, removal or change from the original specification of the hull as supplied Oy Nautor AB shall be approved by Class Manager.

D.3.2 FACTORY WEIGHT
(a) The completed hull and deck, including all internal equipment, engine, strut drive and propeller, deck equipment, keel, and rudder shall be weighed as Factory Weight. Minimum factory weight shall be 20500 kg.
(To Be Confirmed)

D.3.3 HULL CORRECTOR WEIGHTS
(a) The weight of the boat shall be brought up to minimum Factory Weight by the installation of forward and aft lead corrector weights in the positions
shown by Appendix 4. Forward and aft corrector weights shall be approximately equal in weight.

(b) The builder shall record Factory Weight and the weight of corrector weights fitted.
Section E – Hull Appendages

E.1 PARTS
E.1.1 MANDATORY
(a) Keel
(b) Rudder

E.2 GENERAL
E.2.1 RULES
(a) The keel and rudder shall comply with the class rules in force at the time of certification.

E.2.2 MODIFICATIONS, MAINTENANCE AND REPAIR
(a) Hull appendages shall not be altered in any way except as permitted by these class rules.
(b) Routine maintenance such as painting and surface fairing are permitted without re-measurement and re-certification.

E.2.3 CERTIFICATION
(a) The builders shall certify that the hull appendages comply with the Swan 60 construction and material specifications and drawings held by Oy Nautor AB. The keel weight shall be recorded on the certificate.

E.2.4 MANUFACTURERS
(a) The hull appendages shall be made by manufacturers licensed by Oy Nautor AB.

E.2.5 DIMENSIONS
(a) Keel and rudder shapes may be checked at any time by an official measurer. No dimension shall be less than shown by Appendices 2 and 3.
(b) The keel and rudder shall be located as shown by Appendices 2 and 3. The builder shall record the keel position on the certification control form.
(c) Maximum keel draft, as shown by Appendix 2 shall be recorded on the certification control form by the builder.

E.2.6 WEIGHTS
(a) The keel bulb, keel fin, keel nuts and washers, shall weigh minimum 7400 kg and maximum 7640 kg. (To Be Confirmed) The builder shall weigh the keel and record the weight on the certification control form.
(b) The rudder shall weigh not less than 73 kg. The builder shall weigh the rudder, and record the weight on the certification control form.
Section F – Rig

F.1 PARTS
F.1.1 MANDATORY
(a) Mast
(b) Boom
(c) Standing rigging
(d) Bowsprit

F.2 GENERAL
F.2.1 RULES
(a) The spars and their fittings shall comply with the class rules in force at the time of certification of the spar.
(b) The standing and running rigging shall comply with the class rules.

F.2.2 MODIFICATIONS, MAINTENANCE AND REPAIR
(a) Spars shall not be altered in any way except as permitted by these class rules. No component may be moved or modified
(b) Routine maintenance such as servicing is permitted without re-measurement and re-certification.

F.2.3 CERTIFICATION
(a) Builders shall certify that the mast & boom and ancillary components comply with the approved Swan 60 mast & boom construction and material specifications and drawings held by Oy Nautor AB.

F.2.4 DEFINITIONS
(a) MAST DATUM POINT
   The mast datum point is the forward face of the mast at sheerline height. The sheerline height is measured at 45° to the horizontal abreast the mast spar.

F.2.5 MANUFACTURER
(a) Builders of Swan 60 masts and booms shall be licensed by Oy Nautor AB.
(b) The mast, standing rigging and boom shall comply with Nautor drawing 0001282 Revision B – 09/06/2009 ‘SAIL PLAN’

F.3 MAST
F.3.1 MATERIALS & CONSTRUCTION
(a) The spar shall be constructed in accordance with the construction drawings.

F.3.2 FITTINGS
(a) MANDATORY
As detailed in the manufacturing specification.
F.3.3 DIMENSIONS
As detailed in the manufacturing specification.

F.3.4 WEIGHTS
(a) The builder shall weigh the mast in the following condition:
   (i) Fully rigged with all shrouds, headstay, backstay, spreaders, lights, antennae, instrument sensors, displays and brackets, wiring and all permanently attached fittings.
   (ii) All halyards, running rigging and associated loose blocks and tackle shall be removed. Messengers of not more than 4mm diameter and long enough to replace the internal portions of running rigging may be used.
   (iii) All fittings and standing rigging shall be in their normal positions with standing rigging pulled taut down the rig. Moveable items, such as spinnaker pole heel cars shall be at their lower limit of travel.
(b) The centre of gravity of the mast in the condition as in (a) shall not be less than 8990 mm (To Be Confirmed) above the upper edge of the lower limit mark.
(c) The weight of the mast in the condition as in (a) shall not be less than 582 kg.

F.4 BOOM
F.4.1 CONSTRUCTION
(a) The spar shall be constructed in accordance with the construction drawings.

F.4.2 FITTINGS
(a) MANDATORY
   As detailed in the manufacturing specification.

F.4.5 DIMENSIONS
As detailed in the manufacturing specification.

F.4.6 WEIGHT
(a) The builder shall weigh the boom in the following condition:
   (i) Fully rigged includingouthaul.
   (ii) All reef lines shall be removed. Messengers of not more than 4mm diameter and long enough to replace the internal portions of reef lines may be used.
(b) The weight of the boom in the condition as in (a) shall not be less than 205 kg. (To Be Confirmed)

F.5 STANDING RIGGING
F.5.1 MATERIALS & CONSTRUCTION
(a) The standing rigging shall comply with Nautor drawing 0001282 Revision B – 09/06/2009 ‘SAIL PLAN’
F.6  BOWSPRIT

F.6.1 CONSTRUCTION
   (a) The spar shall be constructed in accordance with the construction drawings.

F.6.2 FITTINGS
   (a) MANDATORY
       As detailed in the manufacturing specification.

F.6.3 DIMENSIONS
   As detailed in the manufacturing specification.
Section G – Sails

G.1 GENERAL

G.1.1 RULES
(a) Sails shall comply with the class rules in force at the time of certification.

G.1.2 CERTIFICATION
(a) The official measurer shall certify mainsails and headsails in the tack and spinnakers in the head and shall sign and date the certification mark. In addition the official measurer shall write near or on the certification mark the SF, SLU, SLE, SHW dimensions.
(b) The ISAF or an MNA may appoint one or more In-House Official Measurers to measure and certify sails produced by that manufacturer.

G.1.3 SAILMAKER
(a) Sails may be manufactured by any sailmaker.

G.1.4 CONSTRUCTION
(a) Sail construction is free provided it does not involve
   (i) Artificially thickened areas (eg foamed sails)
   (ii) Multiple surfaces whether inflated by the action of the wind or otherwise.

G.2 MAINSAIL

G.2.1 IDENTIFICATION
(a) The class insignia shall conform with the dimensions, colours and requirements as detailed in the diagram available from the class manager and be placed in accordance with the diagram shown in Appendix 5

G.2.2 CONSTRUCTION
(a) The construction shall be: soft sail.
(b) The following are permitted: Stitching, glues, tapes, bolt ropes, corner eyes, headboard with fixings, Cunningham eye or pulley, batten pocket patches, batten pocket elastic, batten pocket end caps, mast and boom slides, leech line with cleat, windows, tell tales, sail shape indicator stripes and items as permitted or prescribed by other applicable rules.

G.2.3 DIMENSIONS
Mainsail upper leech point is defined as the point on the leech equidistant from the head point and the three quarter leech point. Mainsail seven eighth width (MUW) is defined as the shortest distance between the upper leech point and the luff.
Mainsail dimensions shall not exceed:
(a) Top Width (HB) 0.35 m
(b) Upper Width (Seven Eighths) (MUW) 1.93 m
(c) Three Quarter Width (MTW) 3.44 m
(d) Half Width (MHW) 5.73 m
G.3 HEADSAIL

G.3.1 CONSTRUCTION
(a) The construction shall be: **soft sail**.
(b) The following are permitted: Stitching, glues, tapes, corner eyes, headboard with fixings, Cunningham eye or pulley batten pocket elastic, **batten pocket patches**, batten pocket end caps, leech line with cleat, **windows**, tell tales, sail shape indicator stripes and items as permitted or prescribed by other applicable **rules**.

G.3.2 DIMENSIONS
Headsail **upper leech point** is defined as the point on the leech equidistant from the **head point** and the **three quarter leech point**. Headsail seven eighth width (MUW) is defined as the shortest distance between the upper leech point and the luff.

Headsail dimensions shall not exceed:
(a) Luff Length (LL) 25.40 m
(b) Luff Perpendicular (LP) 7.30 m
(c) Half Width (HHW) 3.99 m
(d) Threequarter Width (HTW) 2.28 m
(e) Seven Eighths Width (HUW) 1.25 m

G.4 SPINNAKER

G.4.1 CONSTRUCTION
(a) The construction shall be: **soft sail**.
(b) The following are permitted: Stitching, glues, tapes, corner eyes, recovery line eyes, tell tales, sail shape indicator lines, leech line with cleat, foot line with cleat, luff line with cleat and items as permitted or prescribed by other applicable **rules**.

G.4.2 DIMENSIONS
(a) The maximum spinnaker area shall not exceed 426 m². (to be con
(b) Spinnaker area shall be calculated as follows:

\[
\text{Spinnaker Area} = ((\text{SLU} + \text{SLE}/2) \times ((\text{SF} + (4 \times \text{SHW}))/5) \times 0.83
\]

\[
\begin{align*}
\text{SLU} &= \text{Spinnaker Luff Length} \\
\text{SLE} &= \text{Spinnaker Leech Length} \\
\text{SHW} &= \text{Spinnaker Half Width} \\
\text{SF} &= \text{Spinnaker Foot Length}
\end{align*}
\]
PART III – APPENDICES

The rules in Part III are closed class rules. Measurement shall be carried out in accordance with the ERS except where varied in this Part.

Section H

H.1
