**PART III - APPENDICES**

H.1 Sail Identification
The Windsurfer Class maintains the ideals and traditions of the sailboarding pioneers to provide a fun and inclusive platform for fair and friendly competition.

The Windsurfer Class supports inexpensive one design racing, where the emphasis is on skill and tactics rather than equipment.

These rules reflect the “Windsurfer LT” specifications as adopted by the Class in 2018.

“Original Windsurfers” (pre-1984) and “Windsurfer One Designs” (1984 – 2018) remain Class legal and may race in their supplied equipment configurations so long as they meet all requirements of the Equipment Rules outlined in Section C 6 - 9.

Windsurfer hulls, hull appendages, rigs and sails are manufacturing controlled.

The Windsurfer hull, hull appendages, rigs and sails shall only be manufactured by appointed manufacturers.

After Windsurfer hulls, hull appendages, rigs and sails have left the manufacturer, they may only be altered to the extent permitted in Section C of these class rules.

Rules regulating the use of equipment during a race are contained in Section C of these class rules, in the Equipment Rules of Sailing Part I and in the Racing Rules of Sailing as per the Windsurfing Competition Rules.

This introduction only provides an informal background and the Windsurfer Class Rules proper begin on the next page.

(c) Should this comparison reveal deviation greater than the Equipment Inspector considers being within manufacturing tolerances, this shall be reported to technical representatives of IWCA and/or AM and/or WNCA for investigation and a decision on the legality of the equipment. If this investigation takes longer than the time available for inspection, the owner shall present alternative equipment for inspection.
