Dear Jason,

The International Hobie Class Association wishes to apply to ISAF for the Hobie Wild Cat to become an ISAF Recognised Class.

In less than one year of production and marketing the Hobie Wild Cat has remarkable sales figures with over 100 boats sold to 16 countries in three continents. In the first three months of 2010 they have presold orders for another 50 boats and adding one more country. The current sales figures exceed the ISAF minimum to become an ISAF Recognised class in Regulation 26.1.1 (e) (ii).

The Class Rules for the Hobie Wild Cat are identical to the Hobie Tiger which was approved by ISAF last year. It is written in ISAF Stand Class Rules format. We have also sent the building specifications of the Wild Cat which remains confidential with ISAF.

The Hobie Wild Cat constitution that is attached is the same constitution that applies for the six other ISAF approved classes.

The International Hobie Class Association requests that the application be on the agenda for the next ISAF Equipment meeting.

If you have any questions I would be delighted to assist to ensure we have a smooth transition into the ISAF family.

Regards

David
