### Recommendations not based on submission

#### Events Committee Agenda Item 4.3

The Events Committee at its meeting proceeded on the basis that Equipment decisions be deferred until the 2018 Annual Conference and recommends to Council that this occur as well. Following the final events decision made by the Council at the Mid-Year meeting, the Equipment Committee will need to consider the relevant equipment criteria and the Events Committee will have to consider the format options for the events.

The Events Committee noted the Constitution Committee advice that if a submission has proposed a new Event but has proposed either to evolve Equipment or to have existing Equipment, the submission is not valid because under Regulation 23.1.3(c)(iv) only new Equipment can be selected following the decision to have a new Event. However, a submission affected by this could be amended to the correct option “New Equipment”.

The Events Committee recommends that the Constitution Committee advice is applied to all relevant Regulation 23 submissions to ensure that they can be considered if proposed and seconded.
