Please state any recommendations for future World Championship events

(1) At the same venue

Communication with Japanese locals is difficult for non Japanese sailors. This means a lot of time lost with translations. Try to find a quick way to communicate or treasure your English and Japanese fluent sailors.

(2) Generally in terms class logistic of running a World Championship? (not venue specific points)

Logistics to and from a venue to a "remote" country like Japan is a challenge. One contact person for all the sailors gives everybody equal opportunities and equal time spend.
