- SWC Chief or Deputy Measurer/Inspector
- SEA Games or similar Chief Measurer/inspector
  (if inspection level is higher than event limitation marking)
- …

Notes:

(^{1}) If a candidate is unsure about the level of an event he wants to include in his application, he should consult with the IMSC first. If a particular Class wishes to add another L1 event, it may be done with the agreement of the IMSC but always depending on the inspection level and type of event.

(^{2}) The candidate shall have been a member of the measurement/inspection team.

(^{3}) The candidate shall have been a member of a class-specific measurement/inspection team.

(^{4}) The candidate was not involved with a specific class measurement/inspection (i.e. overall chief inspector).

(^{5}) A candidate for re-appointment may include as a principal event, one composed of either: **two L2** events, **three L3** events, or **one L2** and **two L3** events. Only one such substitution is permitted per application. This event cannot count as the candidate's own Class event.
