1. Opening of the Meeting

(a) Welcome

The President opened the meeting and thanked the Hellenic Sailing Federation for hosting the meeting in Athens which holds many happy memories from the 2004 Olympics.

Council received the “Green Book” containing all the recommendations on submissions and were informed that the following submissions had been withdrawn:

072-09, 083-09, 094-09, 108-09, 109-09, 110-09, 116-09, 001-10, 004-10, 010-10, 016-10, 017-10, 038-10, 065-10, 102-10, 103-10, 107-10, 114-10, 115-10, 121-10, 146-10, 147-10, 187-10, 201-10 thru 222-10, 227-10

The President outlined the order of proceedings, declarations of conflict of interest and rules of debate. As at the two previous meetings Ben Barger, Chairman of the Athletes' Commission was invited to sit at the Council table and was able to speak on any matter but without voting rights.

The Secretary General explained the voting procedure and that there were 36 votes and 36 cards that were programmed as authorised to vote.

(b) Attendees, alternates and apologies

Council noted the apologies and alternates.

The President took the opportunity of presenting the Silver Medal Award to Alan Green in recognition of 6 years as Chairman of the International Regulations Commission. As head of the ISAF delegation at the International Maritime Organization he has devoted much time to representing the interests of ISAF on many diverse matters ranging from collision regulations, environmental matters and piracy.

2. President’s Report

The President outlined the important business to be covered in the lengthy agenda. Among the events which have been reported on this year, special mention must be given to the Youth Olympic Games held in August in Singapore. Vice-President Teo-Ping Low and Singapore Sailing Federation are to be congratulated for their contribution in making this historical event an outstanding success. We can also be proud that one of our former Vice-Presidents, Ng Ser Miang was the Chairman of the Organising Committee. Many sports used this occasion to think ‘outside of the box’ and showcase their sport by using different, exciting and unusual formats and introducing for instance mixed gender events. The sailing events were a great success and we were one of only three sports that chose the 15 to 16 age group which was commended by the IOC. The equipment choice was excellent for our young sailors. Sailor Darren Choy from Singapore lighting the Olympic flame and the success of windsurfer Siripon Kaewduang-Ngam, nominee for the Rolex Sailor of the Year Awards, were particular highlights. The IOC will evaluate this event with the International Federations and it is already confirmed that China will be the venue for the next Youth Olympic Games. The President is convinced that the Youth Olympic Games will remain part of the IOC programme and a more detailed report is given under Item 10.
The President drew attention to ongoing projects that were not based on submissions. In particular there have been several advances in the work done regarding the environment. Guidelines for the implementation of green measures will be produced for event organisers and MNAs. Work will be undertaken to improve the Environmental Code and develop it to be the “ISAF Code of Environmentally Friendly Behaviour”. Furthermore all training material and ISAF Race Officials manuals will include information relating to care of the environment. The President thanked Vice-President Teresa Lara for her efforts to drive this important message forward.

There has been significant progress in Training and Development with many technical courses for coaches taking place globally. ISAF was only the 6th International Federation to initiate a Sport Specific Scholarship for Coaches which started in February and culminated at the end of October with the recognition of four National Training Managers and Youth Development Officers from Turkey, South Korea, the Cook Islands and Peru who are now able run all aspects of National Sail Training Programme in their parts of the world. More courses are planned each year and full uptake of places is expected largely thanks to the efforts of the ISAF Training Manager working with MNAs to secure IOC funding that is available.

Without the hard work of Training Commission in setting up these programmes and the guidance offered to the new Training and Development Manager none of this would have been possible. However, with targets met and the tools now in place for the Training and Development Department to fully take over, the Executive decided to disband the Commission. The fundamental roles of the Training Commission will be transferred to the Development and Youth Committee, Chaired by former Training Commission member, Olivier Bovyn and Vice-President Nazli Imre who will monitor and move forward all programmes in line with the Strategic Plan. The Connect to Sailing Seminar, an annual event of the Conference programme, offering advice and practical help is a visible measure of how networking and contact is key to building a stronger sailing future.

Turning to the matters on the agenda the President emphasised the role of Council in making decisions that will shape the future of sailing. The feedback from the Olympic Commission report received at the meeting in May was gratefully received. This feedback together with comments from the Executive Meeting in July have formed the Addendum to the original report which is included in the Council papers circulated for this meeting and is the fundamental background that must be taken into account when Council consider the options for ISAF Olympic Events and Equipment laid out in the submissions. A more detailed report from the Olympic Commission is covered under Item 6.

7. International Sports Update

(a) IOC
The President reported on betting and corruption in sport and informed Council that the IOC has been focusing on the relationship between legal and illegal betting and will set up a monitoring system to detect irregular betting. Whilst corruption is not apparent in our sport the IOC will require federations to have a Code of Ethics and a Code of Good Governance.

The President once again stressed that with new sports vying to be recognised and included in the Olympic programme the 2012 Olympic data evaluation processes will be extremely important to enable sailing to remain a 'core' sport.

The President proposed that ISAF will not take up the cancellation insurance policy for the London 2012 Games offered through ASOIF. This is in line with previous Olympic Games and the recommendation of the Audit Committee and the Executive Committee. No objections were raised by Council.

(b) International Jury and Umpire Teams

Council unanimously agreed that the publication of the Olympic Jury and Umpire Teams should be delayed until year end 2011, rather than at the 2011 Annual Conference as required by the Regulations, in order to permit ISAF to observe officials at the 2011 Worlds in Perth.

Congratulations are due to all involved. Fiona Kidd commented that the young athletes conducted themselves in an exemplary fashion.

11. **ISAF Events**

(a) Volvo Youth Sailing ISAF World Championship, 8-17 July 2010, Istanbul, Turkey

In addition to the hard copy report received by Council, Vice-President Nazli Imre reported that 350 sailors from 59 nations competed during the event. The anti-doping ‘Play True’ quiz was featured as part of the education programme with testing also being carried out so the sailors have real experience of adult events. All tests were negative. The event mascot 'windy' was well received and the 40th anniversary of the event was celebrated with a BBQ.
Fiona Kidd, Chairman of the Youth World Championship Sub-committee confirmed that a Working Party has been set up to look into future strategy and will report back to the Events Committee.

(b) ISAF Women’s Match Racing World Championship, 20–25 September 2010, Rhode Island, USA

In addition to the hard copy report received by Council, Vice-President David Irish confirmed that 20 teams from 15 nations participated and this was an excellent event.

(c) ISAF Sailing World Cup

Vice-President Alberto Predieri reported that the feedback received from the first edition of the ISAF Sailing World Cup had been valuable and helped to deliver a more attractive second edition, with greater consistency among the events, (including the adoption of standard documentation, eg. Notice of Race and Sailing Instructions), more branding at the venues and the cooperation of each event organizer. The Event Organizers together with the ISAF staff in charge of the ISAF Sailing World Cup, are to be warmly thanked.

As a result of such improvement, the number of overall entries increased by 20% compared to the first edition. The awards ceremony for the overall winners of the ISAF Sailing World Cup (as well as that for the nations) was better structured and attended. On the media and communication side, it was reported that the ISAF Sailing World Cup web page received hits from 172 nations. Other tools such as Facebook, Twitter, blogs and Youtube channels have been extremely successful. The agreement executed by ISAF with Sunset APP+Vine for the international distribution of the footage from each event resulted in the ISAF Sailing World Cup receiving good coverage on international TV channels/sports programmes such as CNN Mainsail, Sea Master Sailing, World Sport, BBC, Yacht & Sail.

(d) ISAF Worlds 2011, Perth, Australia

The Treasurer reported that the Perth International Regatta, test event for the 2011 ISAF Worlds will be taking place later this month. Everything was in place with the Race Officials on their way and feedback after the event is eagerly awaited.

12. America’s Cup

The Treasurer, David Kellett reported that no announcement has been made regarding the venue city for the final match in 2013 but it is most likely to be San Francisco. A minimum of three America’s Cup World Series regattas are planned for 2011 to be sailed in AC45 Class boats. In 2012 races after March will be sailed in AC72 boats with the AC45 boats being used for a possible Youth America’s Cup to develop talent. He added that ISAF has excellent relations with the America’s Cup Race Management (ACRM) the independent race organiser. The jury was appointed by ISAF in October.

13. ISAF Regulations

The Chairman of the Constitution Committee informed Council that in accordance with proposals 1, 2 and 3 of Submission 037-09 which were approved by Council, the 2011 Regulations will include all amendments approved by Council at this meeting and be published in the revised format with the new numbering but with reference to the current numbering for ease of use.

14. Open Tracking Systems Standards
The Chairman of the Technology Working Party Patrick Bergmans reported on the following progress:

(a) ‘Regatta Publication Platform’ (RPP) will facilitate tracking and publication of the tracked positions of boats on the internet. It will also provide a wide range of regatta specific information (NoR, SI, entry lists, biographies, meteorological data etc). The ‘Regatta Publication Platform’ would normally be installed on the website of the Organizing Authority but can be embedded on any website. Detailed specifications for RRP will be available in the first quarter of 2011.

(b) As part of RPP ISAF will also establish an integral version of ‘Open Tracking Systems Standards’ (OTSS) to ensure that all data published within the framework of RPP is standardized and can be accommodated by a broad range of visual application. OTSS will then develop in accordance with data input available.

(c) ISAF supports the introduction of standards for competitively priced Personal Tracker/Transmitters (PTT) which use off-the-shelf GPS technology and are compliant with OTSS data stream.

These initiatives are designed to introduce tracking as a widespread application to accommodate many levels of events and not aimed at high level events where ISAF is already in partnership with organizations which offer tracking technology.

Rejected.
Accept the principle. Improved wording needed.

Submission 162-10 Racing Rules of Sailing – Rule 33
Approved.

Submission 163-10 Racing Rules of Sailing – Rule 41

The Chairman of the Racing Rules Committee informed the Council that it may consider dealing with this submission as an urgent rule change to be applicable immediately or from 1 January 2011. If the Council wished so, a separate vote on the urgency should be taken which must be passed with a special majority of two-third of the votes cast in favour. In accordance with ISAF Regulation this would also need vote of a 75% majority of the Racing Rules Committee. The Chairman of the Racing Rules Committee agreed to conduct an email vote on this matter if the Council would pass the motion of an implementation date of 1 January 2011.

Decision 1

On a proposal from David Tillett, seconded by Kamen Fillyov, Council approved submission 163-10 with the two thirds majority required (6 reject, 0 abstain, 27 aprove – 33 participated).

Decision 2

On a proposal from David Tillett, seconded by Kamen Fillyov, Council approved the implementation date of 1 January 2011 for submission 163-10 (6 reject, 0 abstain, 27 approve – 33 participated).

Note: The email vote by the Racing Rules Committee has now taken place and the Chairman of the Racing Rules has informed the Secretary General that the outcome was 13 in favour of this being considered urgent and 9 against. This therefore meant a 59% majority and not the required 75%. Accordingly, an insufficient number of RRC Members consider this to be of clear necessity or pressing importance. The text shall therefore not apply from 1 January 2011 but from 1 January 2013.

**CASE XXX**

*Rule 16.1, Changing Course*
*Rule 18.2, Mark-Room: Giving Mark-Room*
*Definitions, Mark-Room*
*Definitions, Room*

> When a boat is entitled to room, the space she is entitled to includes space for her to keep clear of or give room to other boats when required to do so by the rules.

**Assumed Facts for Question 1**

A, B and C are overlapped and on the same tack when the first of them reaches the zone of a mark. A is on the outside, C is on the inside and B is between them.

**Question 1**

Does rule 18.2 require A to give enough space to B to enable B to give mark-room to C?

**Answer 1**

Yes. B must give mark-room to C, and A must give mark-room to B. The definition of mark-room uses the defined term room, and room includes space to manoeuvre in a seamanlike way. The space B needs to manoeuvre in a seamanlike way includes the space she needs to comply with her obligations to C. Therefore rule 18.2 requires A to give B sufficient space for B to give C mark-room.

**Assumed Facts for Question 2**

L, M and W are overlapped and on the same tack with L to leeward, W to windward and M between them. L has no proper course restriction and she luffs.

**Question 2**

Does rule 16.1 require L to give enough room to M to enable M to give room to W to keep clear?

**Answer 2**

Yes. When M changes course to keep clear of L, rule 16.1 requires M to give W room to keep clear. The space M needs to manoeuvre in a seamanlike way includes the space she needs to comply with her obligations to W. Therefore, rule 16.1 requires L to give M sufficient space for M to give W room to keep clear.

**Assumed Facts for Questions 3**

The mark at the starboard end of the starting line is surrounded by navigable water. **When approaching On their approach to the starting line to start, L and W are overlapped on starboard tack approaching that mark. L is to leeward of W and is sailing a course that will pass sufficiently far from the mark that there is space for W to sail between L and the mark. W sails into the space that L freely gives. After W is alongside the mark L luffs, and by luffing promptly in response, W keeps clear of L. However, in order to keep clear of L, W is compelled to touch the mark.**

**Question 3**

Does L comply with rule 16.1?
Answer 3

No. W is required to keep clear under rule 11 and, as stated in the preamble to Section C, she is not entitled to room under rule 19 or mark-room under rule 18. However, when L changes course W is entitled to room to keep clear of L under rule 16.1. L’s change of course compels W, in keeping clear, to break rule 31. It is not seamanlike to touch a mark and therefore L did not give W space to keep clear in a seamanlike way. L breaks rule 16.1 and, under rule 64.1(c), W is exonerated for her breach of rule 31.

Assumed Facts for Question 4

The same as the facts for Question 3 except that either rule B2.5 applies or rule 31 has been deleted by the sailing instructions, and the mark is a committee boat or other substantial object.

Question 4

Does L comply with rule 16.1?

Answer 4

No. Touching such a mark risks damaging either the boat racing or the committee boat, and taking such a risk is not seamanlike.
Question 1
Blue and Yellow are sailing directly downwind on starboard tack with Blue clear ahead of Yellow. The boats are heading directly toward a long seawall. Blue gybes to port when she is at the obstruction. While Blue is gybing Yellow has to alter course to avoid a collision. There is a Y-flag. What should the call be?

Answer 1
Penalize Blue. While Blue is gybing she must keep clear of Yellow, which she fails to do. Yellow is not obliged to give room until the boats become overlapped and, as Yellow has to take avoiding action before this time, Blue breaks 13.2. Because Blue was not compelled to break rule 13.2, she cannot be exonerated under rule 64.1(c).
Question 2

Would the answer be different if the boats became overlapped on the same tack before Blue gybed?

Answer 2

No - penalize Blue.
Before the boats become overlapped, Blue has right of way and can choose to pass the obstruction on either side. As soon as the boats become overlapped, Yellow acquires right of way and now she may choose to pass the obstruction on either side.

When the boats become overlapped Yellow is required by rule 19.2(b) to give Blue room, and Blue is required by rule 11 and then rule 13.2 to keep clear of Yellow. When Blue continues to bear away and gybe, Yellow has to alter course to keep clear of her and Blue breaks rules 11 and 13.2. Blue could have luffed and passed the obstruction on the other side. Blue is not compelled to break rule 11 or rule 13.2 so she cannot be exonerated under rule 64.1(c). Rule 15 does not apply to Yellow as she acquired right of way because of Blue’s action.

If, by continuing to bear away Blue compels Yellow to break rule 19, Yellow will be exonerated for that breach under 64.1(c).

Question 3

When Yellow establishes an overlap, Blue luffs and passes the obstruction on her port side. What should the call be?
Appendix 3

**Answer 3**

If when Yellow establishes the overlap Blue is not yet passing the continuing obstruction and is able to give room but does not, penalize Blue under rule 19.2(b).

However, if the overlap is established when Blue is passing the continuing obstruction and there is not room for Yellow to pass between Blue and the obstruction, penalize Yellow under rule 19.2(c).

If when Blue luffs she breaks the overlap, rule 19.2(c) will apply while the boats are passing the continuing obstruction and Yellow will only be entitled to room if she re-establishes the overlap and there is room for her to pass between Blue and the continuing obstruction.
