1. **Opening of the Meeting**

   (a) Welcome by the ISAF President
The President welcomed everyone and thanked the Spanish Sailing Federation for their invitation to host the conference in Palma. As at the Annual Conference 2013 simultaneous translation in French and Spanish was available for Council members which was also channelled to the live streaming service for anyone wishing to tune in on the website. Council received the “Green Book” of recommendations around the table.

(b) Attendees, Alternates and Apologies

Council noted the apologies and alternatives. Council received instructions on the procedure for debate and how to use the voting pads. A demonstration vote took place and Council noted that 40 Council members were entitled to vote.

Council noted the withdrawal of the following Submissions before the meeting:

035-13, 038-13, 068-13, 005-14,007-14, 015-14, 025-14, 035-14, 057-14, 058-14, 066-14, 068-14, 083-14, 085-14, 088-14, 117-14, 120-14, 122-14, 124-14, 125-14, 130-14, 133-14, 146-14, 147-14, 155-14, 166-14, 168 -14, 169-14, 171-14, 189-14, 191-14, 203-14, 208-14

2. Report by the ISAF President

The President commented that this Conference marks the mid-term of the tenure for the Executive and commended the extraordinary commitment of the Vice-Presidents.

Thanks and best wishes were expressed to Jerome Pels who left ISAF to pursue other professional challenges. Jerome served for more than 17 years during which he steered ISAF through many challenges. The selection of the new CEO will handle by an independent "head hunting" company who will receive the details of any candidates who put themselves forward. The process is expected to take five to six months.

Securing sponsorship has been a key priority and good progress has been made with two highly reputable organizations. However, these negotiations take time. ISAF has demonstrated that sailing provides wonderful options for showcasing their brands and offers good return on investment. The President hoped to make an announcement shortly.

The President was concerned about the lack of communication or misinformation. Clear and accurate communication is vital for sailors, members, sponsors, productivity and working relationships at all levels. Steps are already in place to address this with a monthly update from the Secretariat. Communication will be the first priority over the next two years. The Executive Committee will now improve the whole infrastructure of ISAF’s communication systems utilising all modern technology available.

Submission 025-14 on Sailor Classification has been withdrawn. The President commented this had provoked intense debate and the feedback received from all involved has been useful to find solutions and implement improvements to the Sailor Classification system.

Travelling to many events has highlighted the need for much better ISAF branding. Work is in progress for a prominent ‘House or ISAF’ presence at major events and a complete review of branding protocols will take place for update to Council next November.

The President said the success of the ISF Sailing World Cup is crucial to our sport and the inaugural Sailing World Cup Final will take place in Abu Dhabi shortly after this Conference. ISAF has had direct involvement in the implementation of the final and this will must be for future major events and enable ISAF to build a product of value for the media and sponsors.

260 top athletes will compete in Abu Dhabi, a huge achievement considering the event did not exist five months ago. New concepts will be introduced namely the three minute countdown, radio communication and kiteboarding. Thanks are due to everyone involved in bringing this about but special thanks to the Abu Dhabi Tourism Office, His Excellency Sheikh Khaled and
Abdoullah Al Obaidly.

Weymouth and Hyères have been awarded the European SWC events and work is progressing to secure the Asian venue. 2017 will be the year in which the vision of the Sailing World Cup will be fully realised.

The test event in Rio was a great success, as was the Youth Olympic Games in Nanjing and reports from Walter Boddner, Nazli Imre and Quanhai Li respectively will be made under Item 8.

Despite various problems relating to the complexity of teams and boats, the ISAF Sailing World Championships in Santander delivered a spectacular event. The number of broadcasters who took live coverage increased significantly from the last Championships in Perth. The competitors experienced the challenges of both light and heavy weather conditions and there is now a legacy in Santander for sailors to enjoy in the future.

The President remarked that the recent sad events relating to the ‘Cheeki Rafiki’ highlight the need for offshore safety and training and ISAF has been assisting in the investigation, making recommendations. In March 2014, MNAs participated in the 3 day ISAF Offshore Personal Safety Course / Workshop and the ISAF Guide to Offshore Personal Safety publication has been translated into Chinese and French.

(a) Vice-Presidents Reports

Each Vice-President gave a brief report on their areas of responsibility. It has been an exceptionally successful year training and development. The importance of the Equipment Rules of Sailing was emphasised. The inaugural Youth Match Racing World Championship in Helsinki, Finland was a great success. Clear event strategy is crucial for race officials to deliver events. There has been a huge development in equipment for windsurfing and kiteboarding and these events continue to attract increasing numbers of young competitors. Much work has been accomplished relating to governance. There is more and more focus on branding and media coverage at ISAF Events

(b) Awards

i) ISAF President Development Award

The ISAF President Development Award was awarded to Tunku Abdul Jalil Ibni Sultan Ibrahim of Johor, Malaysia. The presentation of the award will be made at a later date in Malaysia.

The ISAF trust funds which historically represent monies to be utilised in the event of withdrawal of IOC funds continue to grow at a conservative rate.

(d) Debtors List
Council noted the unpaid Member National Authorities and Class Subscriptions (Appendix 2).

5. Activity Reports

(a) IFDS merger with ISAF
As a result two years’ work and the agreement in principle approved via Submission 003-13 and Submissions 001-14 all the necessary changes to the Regulations and Articles have been prepared for the approval of Council at this meeting under item 10(a) of this agenda and at the AGM following this meeting to finalise the merger of the IFDS with ISAF.

Decision
Council unanimously approved the IFDS merger with ISAF (see item 10(a)(i))

(b) ISAF Ethics Code
Council received the ISAF Ethics Code.

Decision
Council unanimously adopted the ISAF Ethics Code.

(c) Mid-Term Report
Council received the Mid-Term Report. Good progress has been made and the Committee Chairmen were requested to review their area of responsibility and submit an updated report in time for the Executive Committee meeting in February 2015. It was noted that there is now a satellite office in Lausanne establishing an active presence close to the IOC and to interact with other federations at all levels. In response to a query regarding how ISAF could achieve IOC Category C status, the President responded that more media coverage is key to this and ISAF is actively progressing a communications strategy to meet these goals.

7. Members

(a) Applications for Membership
i) Macau

Decision 1
In accordance with the recommendation of the Executive Committee, Council unanimously approved the application for Associate Membership from the Associação de Vela de Macau

Decision 2
In accordance with Regulation 1.17(d), Council approved the request from the Associação de Vela de Macau to participate in the 2015 ISAF Youth Sailing World Championship to be held in Langkawi, Malaysia

ii) Monserrat

Decision
In accordance with the recommendation of the Executive Committee, Council unanimously approved the application from the Montserrat Yachting
Association to become an ISAF Associate Member.

(b) MNA Questionnaire

Council received feedback from the 2014 MNA Audit conducted in accordance with Regulation 1.29. Of the 139 MNAs, 123 responded which is a significant increase since the last audit. The report focused on the three areas of participation, coaching and promotion. It is impossible to determine exact numbers of sailors but a good indicator of participation can be measured by the number of clubs an MNA has. The difference within our membership is very diverse ranging from one club with 8 members to 1,100 clubs with 285,000 members but regardless of where an MNA is within this range the goal for ISAF is to deliver the same service. The feedback regarding coaching is very impressive with 84% of MNAs who responded delivering formal coach certification with 79% of these leading to national coach qualification the majority of which are recognised by their NOC. MNAs now promote sailing via social media and it is apparent that where sponsors are secured they are general and not Olympic.

8. Events

(a) 2016 Olympic Sailing Competition

Alastair Fox, Technical Delegate, reported that the 2014 test event in Rio was a great success. 324 sailors from 34 nations who between them had 32 Olympic medals competed at the test event. The key goals of the test event were to test the following:

- Field of Play - including wind, tide and current impact
- ITO and NTO teams
- Marina da Gloria venue and shore facilities
- Race Management Equipment
- Olympic Format
- Management Team

During the test event all of these areas were tested and reviewed. Sensible recommendations will be made for the 2015 test event before ISAF finalizes the plans for the Rio 2016 Olympic Sailing Competition.

It was noted that are still big concerns over pollution and the redevelopment of the venue.

i) Council received a presentation from Walter Böddener, Rio 2016 Sailing Manager on progress made. He commented that the volunteer culture experienced in previous Olympic Sailing Competitions is not present in Brazil and the Organizing Committee will therefore look to the MNAs for assistance and advertise for help on the website.

ii) The update on supplied equipment for the 2016 Olympic Sailing Competition is covered elsewhere under the Submissions relating to supplied equipment in the windsurfing event (RS:X).

(b) 2020 Olympic Sailing Competition

Alastair Fox, Technical Delegate, informed Council that the level of engagement at this stage from the Tokyo Organising Committee was very reassuring. However, it had been confirmed that the venue included in the Tokyo 2020 bid proposal would now not be built. Instead an alternative venue in Tokyo Bay was currently being evaluated but there are serious concerns over the proximity of the Haneda airport could impact on the broadcaster’s abilities to televise the sailing events. It was noted that the Enoshima venue used during the 1964 Olympic Games may be a suitable alternative if a venue in
Tokyo Bay is not approved.

(c) ISAF Sailing World Cup

i) 2014 Final

John Craig, Head of the ISAF Sailing World Cup, reported on the upcoming Sailing World Cup Final in Abu Dhabi. Elite sailors from ten Olympic events and open kiteboarding will be competing and conditions are expected to be excellent. The support from the MNAs, Coaches and Athletes to engage in this event and format has been excellent and as a result the number of sailors at the Final is higher than expected.

ii) 2015 and beyond

John Craig, Head of the ISAF Sailing World Cup reported that the next Sailing World Cup series will eventually see a reduced quota across all SWC Events. As new venues and contracts come on line we will see the events change in format in addition to the quota reductions. A qualification process based on the ISAF rankings and qualification events will be used to decide the entrants for each SWC event. The winners from each SWC event will qualify for the 2015 SWC final, with the best placed 'home continent' sailors also qualify along with the top three finishers of the 2015 Class World Championships. The remaining SWC Final places will be awarded based on the ISAF World Sailing Rankings. Negotiations are currently occurring with several venues and it is our hope that by 2017 all venues will have a standardised format and quota which will see us through the 2020 Olympic Games.

iii) Sponsorship and Technology Partners

John Craig, Head of the ISAF Sailing World Cup informed Council that sponsorship continues to move forward with two A level sponsors we are currently in negotiation and other lower level sponsors showing interest. On the Technology front we are still working with Swiss Timing, Omega and SAP to improve the delivery of our sport through tracking and TV. We have a commitment to work with these partners to better our delivery in Rio and Tokyo in conjunction with the Olympic Broadcast System.

(d) 2014 ISAF Sailing World Championships, Santander

Alastair Fox, Technical Delegate, gave Council a brief presentation in advance of the full report to be delivered to the Events Committee at the 2015 Mid-Year Meeting. The event was a great success with 836 entries and over 1,000 sailors representing 84 nations competed. 10 World Champions were crowned with medallists from 17 nations. 50% of all Olympic quota places were confirmed.

The City of Santander contributed greatly to the success of the event with the redevelopment of the waterfront, the creation of the Dune spectator area and an opening ceremony attended by approximately 25,000 people. Over 300,000 unique spectators enjoyed watching the racing from the Dune over the 10 days of the regatta.

TV and media coverage was good with all 10 medal races broadcast live in over 30 nations and online.

It was noted that in a number of areas ISAF needed to work hard to ensure there are improvements: in particular branding, documentation and race management equipment and policies.

(e) 2014 Youth Olympic Games, Nanjing

Vice-President Nazli Imre reported on the success of the event. The main challenge was that the sailing venue was located some distance from the Youth Olympic Village. There
is no doubt that Nanjing now has a legacy for great sailing in the future. Vice-President Quanhai Li mentioned that consideration should be given to come up with a format more suited to the physicality of young sailors. A full report is pending following the outcome of the IOC review.

(f) 2018 Youth Olympic Games, Buenos Aires
Council received a report that the venue is very good for sailing and recommendations for the format for the event and equipment that will be used will follow once the IOC report and debriefing on the 2014 Nanjing Games has been received.

(g) ISAF Youth Sailing World Championships 2014
Council received the report from the 2014 ISAF Sailing World Championships.

(h) ISAF Youth Sailing World Championships 2015
Antonio de la Madrid, Technical Delegate, reported that this event will be held 27 December 2015, 3 January 2016. The draft NOR has been completed and will be published shortly. The ISAF Youth Worlds Emerging Nations Programme will be established to help sailors from emerging nations compete at the ISAF Youth Worlds and develop their potential for competing at future ISAF events.

Council received the report from the ISAF Women’s Match Racing Championship 2014.

Council received the report on progress with the ISAF Team Racing World Championship 2015.

(l) 2018 ISAF Sailing World Championships, Aarhus, Denmark
Alastair Fox, Technical Delegate, reported that the first site visit had been completed in June and had been successful. The Aarhus management team sent a strong delegation to the Santander 2014 ISAF Sailing World Championships and had a good understanding of the challenges for the next Aarhus 2018 ISAF Sailing World Championships. Work has begun on the Championship contract.

(m) America’s Cup
Gary Jobson reported that at present there are five challengers for the 35th America’s Cup with a possibility of one or two more. In accordance with Protocol, the contract with ISAF can be progressed once the appointment of the Regatta Director is in place. A shorter schedule is expected along with preview events in Bermuda and Portsmouth, GBR. The venue of the 35th America’s Cup Final is still to be announced.

(a) Committees voting on a recommendation to Council shall use the appropriate process defined below. Council may vote to accept the recommendation of a Reporting Committee. If Council does not so do, it shall then use the appropriate process defined below to make its decision(s).

(b) For the decision under Regulation 23.1.3(b), there shall be a single ballot paper listing the ten Events and associated Equipment selected for the next Olympics. Each voting member of the committee (or Council) shall mark an X against those whose inclusion in the Olympics after next he or she wishes to be reviewed. Members can vote for any number of Events to be reviewed (including none). The Event receiving the most votes shall be subject to review. The Events receiving the second and third most votes shall also be subject to review if they received more than 50% of votes cast (excluding abstentions). If no Event receives any votes, then, notwithstanding Regulation 23.1.3(b), no Event shall be reviewed.

(i) When there is a tie that needs to be broken, a separate run-off ballot shall be held between the tied Events to break it. When a tie involves more than two Events, and a run-off ballot only partially breaks that tie another run-off ballot shall be held between those who are still tied.

(ii) When all tied Events remain tied after a run-off ballot, the chairman of the meeting shall have a casting vote.

(c) Decisions under Regulation 23.1.3(c) shall be made based on Submissions, with the option to retain the current Event and Equipment also available. To be valid, a Submission shall propose, for all Events that are being reviewed, the
choice of Event, and whether:

(i) the current Equipment is to be retained;

(ii) the current Equipment is to be evolved (in which case it shall summarise that evolution); or

(iii) new Equipment is to be chosen following trials (in which case it shall summarise the main criteria for the selection of new Equipment).

(a) Voting for decisions under Regulation 23.1.3(c) shall be a two-stage process as follows:

Stage 1: any Submission must be proposed and seconded by a member of the committee (or if the Submission is before Council by a member of Council). A member may propose or second more than one Submission. If a Submission is not so proposed and seconded it is deemed rejected.

Stage 2: which selects either one Submission from those that have been proposed and seconded in Stage 1, or selects to retain the current Events and Equipment (see Regulation 23.1.8(e)).

(b) The Stage 2 procedure is as follows:

(i) Each voting member of the committee (or Council) shall cast one vote for his or her preferred option from those Stage 2 options which have not so far been rejected.

(ii) If an option receives more than 50% of votes cast (excluding abstentions), it is selected and the voting process is concluded.

(iii) If no option receives more than 50% of votes cast, then any option that has received zero votes, and of the remaining options, the one receiving the fewest votes, are rejected.

(iv) The procedure in (i), (ii) and (iii) above shall then be repeated with the remaining options.

(v) After each round of voting, the rejected option, but not the number of votes, shall be declared. The totals of all votes in all rounds shall be declared at the end of the process.

(vi) In the event of a tie that needs to be broken in step (iii) above, it shall be broken as follows:

- the tie is broken in favour of the option that received more votes in the previous round of Stage 2;
- if this fails to break the tie, or it is the first round of Stage 2, then a run-off ballot shall be held.
- If a tie between more than two options is only partially broken by (a) or (b), the tie break process continues between the options that are still tied.
- If a run-off ballot fails to break a tie, the chairman of the meeting shall have a casting vote.

(c) Decisions under Regulation 23.1.3(e) shall be made separately for each Event for which a change of Equipment is being considered using the “Stage 2” procedure in (e) above. The Equipment options available for selection shall be only the Equipment options that participated in the Equipment trials or other
