Managing Emergency Procedure

1. Rescue RIB
   a. Initial assessment of emergency on the FOP
   b. If injured person does not require emergency transport to shore, initiate immediate management and communicate this to the Chief Organizer?
   c. If requires emergency evacuation:
      i. Contact Ambulance car medical officer at ________________________ (insert number here)
      ii. Notify Ambulance car medical officer that you are at the ________________________ (insert name of the FOP), the age, gender, and nature of the athlete’s medical emergency
iii. Notify Ambulance car MO how far you are from the designated RIB docking site where they should take the injured person

iv. If there is truly an emergency requiring immediate Advanced Life Support (ALS), request the Ambulance car personnel via communication established to bring the ER kit to the RIB docking site

d. After transport, notify CMO at ____________________ (insert number here)

2. Ambulance car

a. In case of emergency requiring transport to a higher level of care, contact the designated hospital on________________________ (insert number)

b. Notify the designated Hospital where you are located, the age, gender and nature of the medical emergency

c. If there is truly an emergency, requiring immediate ALS request the hospital ER to prepare appropriate intervention

Emergency plan
Obtain the details of the venue emergency plan and insert your medical personnel in the appropriate positions.

Discuss this scenario at the highest Event Management Meeting (involving risk assessment; safety and medical matters).
