

Rio 2016 Paralympic Sailing Competition

NOTICE TO COMPETITORS

MEASUREMENT NOTICE

REPAIR AND MEASUREMENT REQUESTS:

If any competitors have need for repair or measurement requests the measures will monitor Radio Channel 6 (group 1) from before racing until close of Protest time. If you cannot find a person with an Official handheld Radio please go to the Sport Information Office and they can call us on Channel 6.

MAINSHEET SUSPENDERS FOR BOOM:

For safety reasons the EIC has ruled that for the SKUD 18, the use of a sail material tube or similar device, attached to the boom, solely to keep the mainsheet from falling on the Helm or Crew when the mainsheet is slack, is allowed.

John Koopman, Chief Measurer.
