

2018 Report to RRC from the Racing Rules Committee Working Party (RRC WP)

After the 2017 meetings in Mexico, the RRC WP added all the approved changes to the RRS to the master file for the 2021 edition of the RRS. Members of the WP then worked, during the first months of 2018, on a variety of submissions that were kindly submitted on our behalf to World Sailing by John Doerr.

The 2018 rules-related submissions became available to members of the RRC WP during August of 2018. The WP met in London in the World Sailing offices for three days (5, 6 and 7 September). During those meetings, the WP discussed each rules-related submission and reached a consensus on a recommendation to the RRC for action at the 2018 Annual Conference. Those recommendations were distributed by email on 5 October 2018.

The WP will meet again, this time in Sarasota, on 27 October, and it may issue revised recommendations on a few of the rules-related submissions.

Dick Rose, RRC WP Chairman
